NOTES ON NEWS OF THE DAY.

THE Senate has amended the Legislative appropriation bill to give the President's Private Secretary $5,000 instead of $3,500 a year. Col. Halford will be the first beneficiary of this "raise."

THE winter carnival at Montreal began yesterday. Enough ice had been found to build the palace, and the tobogganers rode over natural snow. About 500 persons from New York are among the visitors.

THE West Virginia Legislature again failed to elect a Senator yesterday. Goff and Kenna received 39 votes each, and 5 other votes were cast. The canvass and declaration of the gubernatorial vote is at present the leading subject of interest.

MR. CLEVELAND takes the place of ex-Attorney General MacVeagh in the big New York law firm, instead of becoming associated with him. He will attend courts and do the general work of a practicing attorney. He has a genius for hard work. It is understood that he will reside in Brooklyn.

THE German minister at Washington has received a communication from Bismarck proposing the resumption at Berlin of the consultations which took place in Washington in 1887 between representatives of Germany, Great Britain and the United States on the subject of Samoa. News also comes from Berlin that the German consul is to be recalled for exceeding his instructions. The war is almost over.

THE Cramps, the firm of ship-builders which Secretary Whitney preferred to the Roaches, inform the government that if it is not satisfied with the dynamite cruiser Vesuvius, they know another government which is willing to take it off their hands at a larger price. They are now engaged in building a dynamite gunboat for Italy. This is the Democratic way of keeping faith with our government and holding its secret plans sacred.

FOUR Democrats from Georgia and Tennessee arrived at Indianapolis last night for the purpose of visiting Gen. Harrison to-day. Their mission is to secure offices for themselves and several Democratic friends. This is more manly than Mr. Cleveland's plan of nominating Democrats for terms of four and five years in the last month of his term. Just at present, however, the question of appointing Southern Democrats to office is not interesting Gen. Harrison. The question, "Who killed Clayton?" has precedence.

GEN. HARRISON is reported as declaring that the Secretary of the Treasury must come from the West, even though Senator Allison declines, as he is believed to have done. Public opinion is still centering upon John C. New, who has been both First Assistant Secretary of the Treasury and Treasurer of the United States. He is also one of Gen. Harrison's closest and most trusted friends. But it is well understood that he does not wish the position. The name of ex-Secretary Windom has also been taken up by the gossippers. He was associated with Mr. Blaine in Garfield's Cabinet.

THERE are Democrats in Congress who advise the Arkansas Breckinridge to decline to accept his certificate to the next Congress and demand a re-election. The gentleman has promised, it is said, to think the matter over. If it can be arranged to have the election take place before the 4th of March he will perhaps consent. If it is delayed till after that date, there is serious danger that the Republican voters will be protected in their rights. For Gen. Harrison has said—referring to the election crimes in Arkansas, "this thing must be stopped." And he will be in position to stop it four weeks from to-day.

THE new territory of Oklahoma, the bill for creating which has just passed the House includes about 23,000,000 acres or 36,000 square miles of Indian territory and the strip lying between Kansas and the Texas Panhandle known as "No Man's Land." This is a little more than half of the entire territory as given on the maps, the area of which is 68,000 square miles. A state about the size of Kentucky will in a few years be founded on this territory. The bill is not likely to pass the Senate during the present session, as it will have to be amended in several important particulars, for which there is not time. But settlers are crowding into the territory, and there is great need of a system of government.

THE civil service rules applied to the railway mail service are of recent date. There was no need of these rules, it appears, when the present administration came in, for the service was in such an excellent state of efficiency that no removals were made until about six months ago. Mr. Cleveland is now paying off his political debts by removing efficient Republicans and filling their places with Democratic heelers, and the change of rules is intended to fasten these men upon the public for at least a year. The new rules, however, can be changed, especially the one that forbids reinstatement within a year after removal. The efforts of Mr. Cleveland to put General Harrison's administration in charge of the Democratic party will compel the clearing away of all obstacles to genuine civil service reform by the summary process known as a "clean sweep."

WARNER MILLER points out a very objectionable feature of the Excise Commission's bill. It protects all who are at present engaged in the liquor trade by providing that there shall be no reduction of the present number of saloons, but that no new licenses shall be granted till the saloons are reduced in number till there is only one for each 500 inhabitants. This shuts off all new competition. But there could be no reduction of the number of saloons in New York city till the population had increased to four or five millions. The bill also provides that no license shall be granted for the sale of liquors within 200 feet of any church, school house, academy, college, reformatory or cemetery, but good care is taken not to interfere with existing licenses. This would give the dealers an absolute monopoly of the situation. Provision is also made for the removal of a saloon from one part of the city to another without vitiating the license, and for the sale or transfer of a license to another dealer upon payment of a fee of $5. The whole bill is carefully drawn in the interest of liquor trade.

GENERAL TELEGRAPH NEWS

IN THE ASSEMBLY AND SENATE.

Only Five New Bills in the Lower House—A Scene in the Senate.

By Telegraph to The Freeman

ALBANY, Feb. 5.—In the Assembly to-day only five bills were introduced. This morning Cotrell introduced a bill providing for the establishment of dairy schools. It authorizes the State Dairy Commissioners to establish one and not more than four dairy schools, for the purpose of giving free instruction to young men and women in the management of the dairy, and the production of milk, and the science and art of butter and cheese making. Such schools are to be located in such places as may be deemed best suited and most convenient.

THE DAIRY COMMISSIONER.

The Dairy Commissioner is also authorized to hire a suitable farm or farms, and to hire or purchase dairy cows and suitable implements and apparatus. The products shall be sold and the proceeds paid into the State Treasury. The Dairy Commissioner is authorized to appoint an Assistant Dairy Commissioner who shall be qualified in the science of chemistry as applied to dairy agriculture and competent to instruct in practical butter and cheese making and who shall manage the business of such farms. He shall also appoint such superintendents and teachers as may be necessary and fix their compensation. The bill appropriates $30,000.

CONELLY'S ASSESSORS' BILL.

In Committee the House considered Conelly's bill providing for two additional State Assessors, one of whom shall come from New-York City. Conelly advocated the bill, stating that it was favored by all the tax-payers and trade organizations in the City of New-York which pays 47½ per cent. of all the taxes paid in the State and is entitled to a representative on this Board.

IN THE SENATE.

By Telegraph to The Freeman.

ALBANY, Feb. 5.—In the Senate, to-day, the Rev. S. V. Leech, of Albany, opened the session with prayer. He referred to the corruption which so greatly influenced elections in the great cities, and prayed for deliverance from "the political gamblers, who buy up the the votes of ignorant immigrants, who comprise such a large portion of the population of cities." Immediately after the word "Amen" Grady arose. "I move," he said, "that the officer having charge of the selection of a clergyman to offer the opening prayers in this body be instructed to hereafter give no invitation to do so to the person who just assailed the throne of mercy with a very peculiar petition. It is an outrage that a prayer should be made a cover for assailing the political majorities of our cities as ignorant immigrants steeped in superstition.

SOME REMARKS.

"Perhaps the prayer was meant for the Senator from the Sixth" [Grady]' interrupted Erwin.

"No it was not'" answered Grady.

"But I think it was," replied Erwin.

"The insult is worse," said Murphy, "because it comes from a clap-trap politician who has been a perennial candidate for Chaplain of the Senate."

"But what is the matter with the prayer ?" persisted Erwin. "I think we should pray continually to be delivered from fraud and corruption."

The Lieutenant-Governor, at this point, ruled that the entire matter was out of order.

BILLS INTRODUCED.

Bills introduced: Coggeshall, enabling dyers, laundrymen, etc., to collect unpaid charges on goods left with them by selling the goods at public auction six months after the charges are due. Fassett, to promote the care and curative treatment of the pauper and indigent insane of the State, outside of New-York, Kings and Monroe counties. Sweet, appropriating $6,000 for repairing the second level and State ditch of the Cayuga and Seneca Canal, at Seneca Falls. Fassett, giving natural gas companies right of eminent domain. Foley, appropriating $12,000 for completing the Saratoga Armory.

AN ACCIDENT ON LOWELL RAILROAD.

One Man Killed and Several Others Said to be Fatally Injured.

By Telegraph to The Freeman.

BOSTON, Feb. 5.—An accident occurred shortly after midnight on the Lowell Railroad near the Prospect-street station in Somerville whereby an engineer lost his life and a fireman, a brakeman and a conductor were severely if not fatally injured. An eye witness says about 12:30 o'clock a locomotive and tender passed up the track toward the Arlington branch on the way to Somerville. The engine, as it passed the bridge and neared the Winter Hill station, swayed back and forth and then left the irons and toppled over on its side. It was found that the engine had fallen across the inward track and a man was pinned beneath the cab. One of the injured men had taken the precaution to light a lantern and set it upon the track, but a train came down and before it could slow up collided with the locomotive and drove it ahead toward the Cross-street bridge, carrying the injured man beneath it. When taken out he was horribly mangled and dead. He proved to be the engineer, W. Tankell, aged 35, of Montpelier, Vt. On the locomotive were the fireman, Frederick Trenham, a brakeman named Zers, and Charles Cushing, a freight conductor. The fireman and brakeman were both seriously injured and were removed to the hospital in Somerville. The Conductor was badly scalded.

THE STRIKE IN NEW-YORK CITY.

One Man Shot Dead—Strikers Who Defy the Law—The Situation.

By Telegraph to The Freeman.

NEW-YORK, Feb. 5.—There is very little to be said about the street car tie-up, to-day, beyond the fact that all the roads that ran cars yesterday are running again to-day, most of them on schedule time, and all of them meeting the demands of traffic. Even the Belt line started out boldly, this morning. At 9 o'clock this line had 15 cars running, and there had been no disturbances. Very many of the strikers are applying for re-engagement, but some of the roads, notably the Fourth Avenue, will have nothing to do with them. The Seventh and Ninth-Avenue lines expected to start their cars this afternoon. This will leave only one or two small cross-town lines not in operation. Cars were started this morning on the Seventh-Avenue line in Brooklyn, making three out of eight lines now in operation. All of the cars are under police protection. It is said many of the old hands are applying for work.

ONE MAN SHOT DEAD.

This afternoon a party of men, presumably strikers, attacked a car at Sixty-fifth-street and the Boulevard and began pelting it with stones. The passengers left the car and the officer in charge of it, Thomas K. Snyder, having been hit in the face by one of the stones fired into the crowd. The bullet went whizzing through the brain of one of the men. He died while being removed to the hospital. His name has not yet been ascertained. The officer who did the shooting was placed under arrest.

Trouble was reported this afternoon between the strikers and the men employed on the Avenue C Line at Fourteenth-street and Avenue C. A patrol wagon filled with police was sent to the scene.

A RACE WAR IN ILLINOIS.

THE C. S. PARNELL COMMISSION.

The Irish Portion of the Case Finished; the American Part to Come Next.

By Cable to The Freeman.

LONDON, Feb. 5.—At the opening of to-day's session of the Parnell Commission Attorney General Webster said he had finished with the Irish portion of the *Times* case and would now take up the American part. A witness named Beach testified that he joined the Fenians in 1865 and was appointed Military Organizer. After the failure of the invasion of Canada by the Fenians he joined a society known as the "B C," the object of which was to provide money to carry on the Irish agitation and ship arms to Ireland. Witness said he remembered the visit of Messrs. Dillon and Parnell to America in 1880. The meetings held during their stay in the United States were organized exclusively by the United Brotherhood or Clan Na Gael. Witness attended several meetings, at which Dillon and Parnell were present. Parnell attended the demonstration in Chicago, at which bodies of the Clan Na Gael and the Hibernian Rifle Guards were under arms.

PARNELL'S ACTION FOR LIBEL.

By Cable to The Freeman.

LONDON, Feb. 5.—The action brought by Mr. Parnell against John Walter, registered proprietor of the *Times*, for libel, came up before the Court at Edinburgh, to-day, and the case was dismissed, the costs being taxed against the plaintiff. The judgment was on the ground that Walter, being one of the copartnership owning the *Times*, arrestments against him as an individual would be invalid. Parnell will appeal.

THE "CLAN NA GAEL."

Beach produced a copy of the Constitution of the "B. C.," or "Clan Na Gael." It provided for concerted action with the Irish Brotherhood and kindred societies to bring about a combination of the Irish revolutionary movements in all parts of the world to act decisively against England. Witness said that in 1878 Devoy and Millen were sent as delegates to Ireland, receiving $10,000 from the skirmishing fund and a further sum which does not appear in the official list. Attorney General Webster read Devoy's official report, in which he urged that before any large quantity of arms was sent to Ireland three delegates should be sent to prepare Irishmen to use them. Beach further testified that Eagan told him Parnell desired to join the Brotherhood but it was thought his connection with the organization would destroy his usefulness and he was not allowed to join.

RACE WAR IN THE STATE OF ILLINOIS.

Factory Operatives Incensed Over the Employment of Colored Men.

By Telegraph to The Freeman.

MARION, Ills., Feb. 5.—What threatens to prove a serious race war has broken out here. A few weeks ago F. M. Westbrook & Sons, tobacco packers, imported a number of colored men to work in their factory, claiming that there were no white men here capable of performing the work of stemming and stripping. The action of the Company greatly enraged a number of white workmen, and they warned the colored men to leave town within 10 days or receive summary punishment. Threats were also made to burn the factory and the homes of the imported laborers. Little attention was paid to the threats. Saturday night a lot of men went to the home of Logan Collins, a colored boss, and fired five shots into the house. Collins procured a revolver and returned the fire, but no one was hurt. The factory owners say they will not discharge the new men.

By Cable to The Freeman.

VIENNA, Feb. 5.—Several persons have been arrested in cafes here for repeating the rumors that Crown Prince Rudolph met his death at the hands of the husband of a woman he had betrayed. NOTES ON NEWS OF THE DAY.

THE Senate has amended the Legislative appropriation bill to give the President's Private Secretary $5,000 instead of $3,500 a year. Col. Halford will be the first beneficiary of this "raise."

THE winter carnival at Montreal began yesterday. Enough ice had been found to build the palace, and the tobogganers rode over natural snow. About 500 persons from New York are among the visitors.

THE West Virginia Legislature again failed to elect a Senator yesterday. Goff and Kenna received 39 votes each, and 5 other votes were cast. The canvass and declaration of the gubernatorial vote is at present the leading subject of interest.

MR. CLEVELAND takes the place of ex-Attorney General MacVeagh in the big New York law firm, instead of becoming associated with him. He will attend courts and do the general work of a practicing attorney. He has a genius for hard work. It is understood that he will reside in Brooklyn.

THE German minister at Washington has received a communication from Bismarck proposing the resumption at Berlin of the consultations which took place in Washington in 1887 between representatives of Germany, Great Britain and the United States on the subject of Samoa. News also comes from Berlin that the German consul is to be recalled for exceeding his instructions. The war is almost over.

THE Cramps, the firm of ship-builders which Secretary Whitney preferred to the Roaches, inform the government that if it is not satisfied with the dynamite cruiser Vesuvius, they know another government which is willing to take it off their hands at a larger price. They are now engaged in building a dynamite gunboat for Italy. This is the Democratic way of keeping faith with our government and holding its secret plans sacred.

FOUR Democrats from Georgia and Tennessee arrived at Indianapolis last night for the purpose of visiting Gen. Harrison to-day. Their mission is to secure offices for themselves and several Democratic friends. This is more manly than Mr. Cleveland's plan of nominating Democrats for terms of four and five years in the last month of his term. Just at present, however, the question of appointing Southern Democrats to office is not interesting Gen. Harrison. The question, "Who killed Clayton?" has precedence.

GEN. HARRISON is reported as declaring that the Secretary of the Treasury must come from the West, even though Senator Allison declines, as he is believed to have done. Public opinion is still centering upon John C. New, who has been both First Assistant Secretary of the Treasury and Treasurer of the United States. He is also one of Gen. Harrison's closest and most trusted friends. But it is well understood that he does not wish the position. The name of ex-Secretary Windom has also been taken up by the gossippers. He was associated with Mr. Blaine in Garfield's Cabinet.

THERE are Democrats in Congress who advise the Arkansas Breckinridge to decline to accept his certificate to the next Congress and demand a re-election. The gentleman has promised, it is said, to think the matter over. If it can be arranged to have the election take place before the 4th of March he will perhaps consent. If it is delayed till after that date, there is serious danger that the Republican voters will be protected in their rights. For Gen. Harrison has said—referring to the election crimes in Arkansas, "this thing must be stopped." And he will be in position to stop it four weeks from to-day.

THE new territory of Oklahoma, the bill for creating which has just passed the House includes about 23,000,000 acres or 36,000 square miles of Indian territory and the strip lying between Kansas and the Texas Panhandle known as "No Man's Land." This is a little more than half of the entire territory as given on the maps, the area of which is 68,000 square miles. A state about the size of Kentucky will in a few years be founded on this territory. The bill is not likely to pass the Senate during the present session, as it will have to be amended in several important particulars, for which there is not time. But settlers are crowding into the territory, and there is great need of a system of government.

THE civil service rules applied to the railway mail service are of recent date. There was no need of these rules, it appears, when the present administration came in, for the service was in such an excellent state of efficiency that no removals were made until about six months ago. Mr. Cleveland is now paying off his political debts by removing efficient Republicans and filling their places with Democratic heelers, and the change of rules is intended to fasten these men upon the public for at least a year. The new rules, however, can be changed, especially the one that forbids reinstatement within a year after removal. The efforts of Mr. Cleveland to put General Harrison's administration in charge of the Democratic party will compel the clearing away of all obstacles to genuine civil service reform by the summary process known as a "clean sweep."

WARNER MILLER points out a very objectionable feature of the Excise Commission's bill. It protects all who are at present engaged in the liquor trade by providing that there shall be no reduction of the present number of saloons, but that no new licenses shall be granted till the saloons are reduced in number till there is only one for each 500 inhabitants. This shuts off all new competition. But there could be no reduction of the number of saloons in New York city till the population had increased to four or five millions. The bill also provides that no license shall be granted for the sale of liquors within 200 feet of any church, school house, academy, college, reformatory or cemetery, but good care is taken not to interfere with existing licenses. This would give the dealers an absolute monopoly of the situation. Provision is also made for the removal of a saloon from one part of the city to another without vitiating the license, and for the sale or transfer of a license to another dealer upon payment of a fee of $5. The whole bill is carefully drawn in the interest of liquor trade.

GENERAL TELEGRAPH NEWS

IN THE ASSEMBLY AND SENATE.

Only Five New Bills in the Lower House—A Scene in the Senate.

By Telegraph to The Freeman

ALBANY, Feb. 5.—In the Assembly to-day only five bills were introduced. This morning Cotrell introduced a bill providing for the establishment of dairy schools. It authorizes the State Dairy Commissioners to establish one and not more than four dairy schools, for the purpose of giving free instruction to young men and women in the management of the dairy, and the production of milk, and the science and art of butter and cheese making. Such schools are to be located in such places as may be deemed best suited and most convenient.

THE DAIRY COMMISSIONER.

The Dairy Commissioner is also authorized to hire a suitable farm or farms, and to hire or purchase dairy cows and suitable implements and apparatus. The products shall be sold and the proceeds paid into the State Treasury. The Dairy Commissioner is authorized to appoint an Assistant Dairy Commissioner who shall be qualified in the science of chemistry as applied to dairy agriculture and competent to instruct in practical butter and cheese making and who shall manage the business of such farms. He shall also appoint such superintendents and teachers as may be necessary and fix their compensation. The bill appropriates $30,000.

CONELLY'S ASSESSORS' BILL.

In Committee the House considered Conelly's bill providing for two additional State Assessors, one of whom shall come from New-York City. Conelly advocated the bill, stating that it was favored by all the tax-payers and trade organizations in the City of New-York which pays 47½ per cent. of all the taxes paid in the State and is entitled to a representative on this Board.

IN THE SENATE.

By Telegraph to The Freeman.

ALBANY, Feb. 5.—In the Senate, to-day, the Rev. S. V. Leech, of Albany, opened the session with prayer. He referred to the corruption which so greatly influenced elections in the great cities, and prayed for deliverance from "the political gamblers, who buy up the votes of ignorant immigrants, who comprise such a large portion of the population of cities." Immediately after the word "Amen" Grady arose. "I move," he said, "that the officer having charge of the selection of a clergyman to offer the opening prayers in this body be instructed to hereafter give no invitation to do so to the person who just assailed the throne of mercy with a very peculiar petition. It is an outrage that a prayer should be made a cover for assailing the political majorities of our cities as ignorant immigrants steeped in superstition.

SOME REMARKS.

"Perhaps the prayer was meant for the Senator from the Sixth" [Grady]' interrupted Erwin.

"No it was not'" answered Grady.

"But I think it was," replied Erwin.

"The insult is worse," said Murphy, "because it comes from a clap-trap politician who has been a perennial candidate for Chaplain of the Senate."

"But what is the matter with the prayer?" persisted Erwin. "I think we should pray continually to be delivered from fraud and corruption."

The Lieutenant-Governor, at this point, ruled that the entire matter was out of order.

BILLS INTRODUCED.

Bills introduced: Coggeshall, enabling dyers, laundrymen, etc., to collect unpaid charges on goods left with them by selling the goods at public auction six months after the charges are due. Fassett, to promote the care and curative treatment of the pauper and indigent insane of the State, outside of New-York, Kings and Monroe counties. Sweet, appropriating $6,000 for repairing the second level and State ditch of the Cayuga and Seneca Canal, at Seneca Falls. Fassett, giving natural gas companies right of eminent domain. Foley, appropriating $12,000 for completing the Saratoga Armory.

AN ACCIDENT ON LOWELL RAILROAD.

One Man Killed and Several Others Said to be Fatally Injured.

By Telegraph to The Freeman.

BOSTON, Feb. 5.—An accident occurred shortly after midnight on the Lowell Railroad near the Prospect-street station in Somerville whereby an engineer lost his life and a fireman, a brakeman and a conductor were severely if not fatally injured. An eye witness says about 12:30 o'clock a locomotive and tender passed up the track toward the Arlington branch on the way to Somerville. The engine, as it passed the bridge and neared the Winter Hill station, swayed back and forth and then left the irons and toppled over on its side. It was found that the engine had fallen across the inward track and a man was pinned beneath the cab. One of the injured men had taken the precaution to light a lantern and set it upon the track, but a train came down and before it could slow up collided with the locomotive and drove it ahead toward the Cross-street bridge, carrying the injured man beneath it. When taken out he was horribly mangled and dead. He proved to be the engineer, W. Tankell, aged 35, of Montpelier, Vt. On the locomotive were the fireman, Frederick Trenham, a brakeman named Zers, and Charles Cushing, a freight conductor. The fireman and brakeman were both seriously injured and were removed to the hospital in Somerville. The Conductor was badly scalded.

THE STRIKE IN NEW-YORK CITY.

One Man Shot Dead—Strikers Who Defy the Law—The Situation.

By Telegraph to The Freeman.

NEW-YORK, Feb. 5.—There is very little to be said about the street car tie-up, to-day, beyond the fact that all the roads that ran cars yesterday are running again to-day, most of them on schedule time, and all of them meeting the demands of traffic. Even the Belt line started out boldly, this morning. At 9 o'clock this line had 15 cars running, and there had been no disturbances. Very many of the strikers are applying for re-engagement, but some of the roads, notably the Fourth Avenue, will have nothing to do with them. The Seventh and Ninth-Avenue lines expected to start their cars this afternoon. This will leave only one or two small cross-town lines not in operation. Cars were started this morning on the Seventh-Avenue line in Brooklyn, making three out of eight lines now in operation. All of the cars are under police protection. It is said many of the old hands are applying for work.

ONE MAN SHOT DEAD.

This afternoon a party of men, presumably strikers, attacked a car at Sixty-fifth-street and the Boulevard and began pelting it with stones. The passengers left the car and the officer in charge of it, Thomas K. Snyder, having been hit in the face by one of the stones fired into the crowd. The bullet went whizzing through the brain of one of the men. He died while being removed to the hospital. His name has not yet been ascertained. The officer who did the shooting was placed under arrest.

Trouble was reported this afternoon between the strikers and the men employed on the Avenue C Line at Fourteenth-street and Avenue C. A patrol wagon filled with police was sent to the scene.

A RACE WAR IN ILLINOIS.

THE C. S. PARNELL COMMISSION.

The Irish Portion of the Case Finished; the American Part to Come Next.

By Cable to The Freeman.

LONDON, Feb. 5.—At the opening of to-day's session of the Parnell Commission Attorney General Webster said he had finished with the Irish portion of the *Times* case and would now take up the American part. A witness named Beach testified that he joined the Fenians in 1865 and was appointed Military Organizer. After the failure of the invasion of Canada by the Fenians he joined a society known as the "B C," the object of which was to provide money to carry on the Irish agitation and ship arms to Ireland. Witness said he remembered the visit of Messrs. Dillon and Parnell to America in 1880. The meetings held during their stay in the United States were organized exclusively by the United Brotherhood or Clan Na Gael. Witness attended several meetings, at which Dillon and Parnell were present. Parnell attended the demonstration in Chicago, at which bodies of the Clan Na Gael and the Hibernian Rifle Guards were under arms.

PARNELL'S ACTION FOR LIBEL.

By Cable to The Freeman.

LONDON, Feb. 5.—The action brought by Mr. Parnell against John Walter, registered proprietor of the *Times*, for libel, came up before the Court at Edinburgh, to-day, and the case was dismissed, the costs being taxed against the plaintiff. The judgment was on the ground that Walter, being one of the copartnership owning the *Times*, arrestments against him as an individual would be invalid. Parnell will appeal.

THE "CLAN NA GAEL."

Beach produced a copy of the Constitution of the "B. C.," or "Clan Na Gael." It provided for concerted action with the Irish Brotherhood and kindred societies to bring about a combination of the Irish revolutionary movements in all parts of the world to act decisively against England. Witness said that in 1878 Devoy and Millen were sent as delegates to Ireland, receiving $10,000 from the skirmishing fund and a further sum which does not appear in the official list. Attorney General Webster read Devoy's official report, in which he urged that before any large quantity of arms was sent to Ireland three delegates should be sent to prepare Irishmen to use them. Beach further testified that Eagan told him Parnell desired to join the Brotherhood but it was thought his connection with the organization would destroy his usefulness and he was not allowed to join.

RACE WAR IN THE STATE OF ILLINOIS.

Factory Operatives Incensed Over the Employment of Colored Men.

By Telegraph to The Freeman.

MARION, Ills., Feb. 5.—What threatens to prove a serious race war has broken out here. A few weeks ago F. M. Westbrook & Sons, tobacco packers, imported a number of colored men to work in their factory, claiming that there were no white men here capable of performing the work of stemming and stripping. The action of the Company greatly enraged a number of white workmen, and they warned the colored men to leave town within 10 days or receive summary punishment. Threats were also made to burn the factory and the homes of the imported laborers. Little attention was paid to the threats. Saturday night a lot of men went to the home of Logan Collins, a colored boss, and fired five shots into the house. Collins procured a revolver and returned the fire, but no one was hurt. The factory owners say they will not discharge the new men.

THE CLAYTON ASSASSINATION.

Powell Clayton and W. H. H. Clayton, brothers of the Republican Congressman-elect of the Second Arkansas district who was murdered at Plummerville one week ago to-night while preparing the evidence on which to prove his rights as a member of the next House, have prepared a statement of the facts preceding and leading up to the murder which go show that it was for no other purpose than to prevent Clifton R. Breckenridge from being unseated, and that it was countenanced if not actually abetted by the highest Democratic authorities in the state.

The beginning of the story antedates the September election, when state officers were chosen. To prepare for that election a Democratic club was organized at Morrilton, the county seat of Conway county, with one Sowers, fresh from Mississippi, at its head. This club resolved itself into a militia company about two weeks before the election, and Gov. Hughes furnished it with state arms and a full supply of ammunition. The company paraded the streets of Morrillton, fully armed, every day. On the day of election they brought their guns, heavily loaded, and deposited them in a convenient place in the building where the election was held. In the morning the Republican Judge of Election was arrested on a false pretext, whereupon Sowers marched with his company to the polls and elected a Democrat to fill the vacancy. This made the board solidly Democratic. By a similar proceeding the places of the two Republican Judges at Plummerville were usurped, the result of which was the election of a full set of Democratic officials in Conway county, though the people are Republican by a large majority.

The Congressional election occurred two months later, John M. Clayton being the Republican and Clifton R. Breckinridge the Democratic candidate. The day before this election M. W. Benjamin, a prominent Republican lawyer of Little Rock, was sent to Conway county by the Republican State Committee to use his best efforts to secure a fair vote. On arriving at the depot at Morrilton he was set upon by a mob of several hundred citizens, who threw him from the car, assaulted and beat him, pulled handfuls of beard from his face, and finally shot him in the forehead, the bullet being flattened on his skull. Benjamin died soon afterwards, leaving his dying testimony with his wife that his death was due to the injuries inflicted by the Morrilton mob. On the day of the election the two Republican Judges were on hand at the Plummerville poll, but they were ignored by the Democratic Judge, who put in nomination two members of his own party, and upon a mere affirmative vote declared them elected without putting the negative. The Republican Judges, accompanied by the Republican Supervisor, undertook to open polls elsewhere, but were notified by five Democratic Deputy Sheriffs that they would not be permitted to do so. The Supervisor, whose name is Charles Wahl, thereupon returned to the place where the Democratic Judges were holding the election. When the polls closed the original Democratic Judge took the ballot-box and carried it from place to place through the town, Wahl persistently following. Becoming tired, the Judge finally returned to the polling place, which was soon afterwards invaded by four armed and masked men, who, having awed the Judges by presenting their pistols, seized the ballot-box and poll books and carried them away. This box contained 697 ballots, of which 572 were cast for John M. Clayton.

It was upon learning these unlawful acts that Mr. Clayton resolved to make a contest for his seat, and he employed a responsible citizen of Plummerville named Alexander to ascertain the actual number of votes cast for him in the precinct. Up to the 17th of December Alexander had obtained the names of 45 citizens who had voted for Clayton. Buton that night Supervisor Wahl was inveigled into a game of cards in a room that contained a glass door, and was shot in the neck and dangerously wounded by some one on the outside. This so frigh'ened Alexander that he gave up the search and left the state. Wahl fled to Little Rock, where he now remains for safety For none of these crimes—the murder of Benjamin, the wounding of Wal l, and the stealing of the ballot boxes—has any person been arrested or any official reward offered. Hence they stand approved by Democratic authority.

Clayton went to Plummerville unarmed and unescorted, trusting to his opponent and neighbor, Mr. Breckinridge, to restrain his partisans. As he passed through Little Rock he said to a friend there that he did not believe he would be harmed. On the evening of January 29th, after several days spent in taking testimony, he was shot dead while in the act of sitting down to a desk to write a letter to his motherless children at Pine Bluff.

The brothers write: "We were unable to remove his body until 3:30 P. M. the next day, up to which time the Sheriff of the county had not appeared, being, in the language of the deputy, engaged in the more important business of collecting taxes. Nor had any citizen of the town made the slightest effort to trace or apprehend the murderer."

This murder, it should be stated, elects Clifton R. Breckenridge to Congress. He has not offered a dollar of reward to help along the pursit of the murderers, has not spoken a word in condemnation of act, or shown a single sign of unwillingness to take the seat that is the price of the blood of a worthy neighbor and fellow citizen. He has had too long and thorough training in the school of politics that relies upon murder as the final appeal, to be shocked at the thought that he is to be the beneficiary of such an act. This man is coming to Washington again to make laws for the North and for the nation. Does our civilization require such representatives? Can it afford to employ them?

HOW THE CROWN PRINCE DIED.

A succession of contradictory reports has been published concerning the mysterious death of Rudolph, the Crown Prince of Austria. When the first announcement was made, it was that he had died of sudden paralysis of the heart, brought on by attacks of rheumatism. This was a court falsehood, given out to cover the real cause of death. Then came the admission of suicide, which is probably the truth. But this was followed by the *World's* remarkable dispatch, asserting that he had been murdered by one of the highest noblemen in the Empire, because of improper attentions to his slayer's wife. There would be nothing incredible in this except for the fact that the circumstances disprove it, for the Hapsburgs are known to be and to have been always a "bad lot."

And now comes the most sensational statement of all. It is that the Prince was the victim of a duel on what is called "the American plan" in the East. He had become involved in an "affair of honor" with a high Austrian family, and a son of this family agreed to throw dice with him, the loser to die by his own hand within three months. The dice were thrown and the Prince lost. He waited till the three months were up, and then put a bullet through his brain. It is further reported that when the Prince's room was broken open the dead body of a beautiful young lady, the daughter of a wealthy Bohemian family, was also found. The Prince had killed her with a revolver before taking his own life. An attempt was made to keep this part of the tragedy secret, and the remains of the victim were privately conveyed to the home of her parents. This story is said to be generally credited in Vienna.

Fortunately, the imperial family of Austria is not lacking in "scions," and there is little danger that the throne will become vacant in consequence of Rudolph's death. The succession will now devolve upon the Archduke Charles Louis, in the event of Francis Joseph's death.

The conception that dueling with dice is the "American plan" is a misapprehension, and does the practitioners of the code injustice. The American plan is for the combatants to go bravely upon the field, face each other and fire—after the bullets have been carefully drawn by their seconds. In this way honor is vindicated, and both live to tell the tale of their heroic deed. Rudolph's act was only the American plan of suicide, which is to kill the woman in the case first.

GOOD APPLES.

The apple crop of 1888 was so large that thousands of barrels in Western New York are rotting in the hands of farmers and merchants because there is no market for them. While there is this abundance, it is a notable fact that there is a great deal of wormy and defective fruit, which decays quickly. This is attributed by *Vick's Magazine*, a valuable authority on horticulture, to the codlin moth, the habits of which Mr. Vick has carefully investigated. This moth, he insists, makes all the wormy apples. It is found that the practice of spraying the trees with water and paris green or london purple at the time the blossoms are fulling, and repeating the operation about two weeks later, "has the effect to so great an extent to prevent the deposit of the insect's eggs and to destroy the larva already hatched, that the crop is almost wholly saved from injury." Partial failures have only followed the falling of heavy rains immediately after the work has been done, if done thoroughly. The moths have become so numerous that it is impossible to raise a crop of sound fruit without spraying.

This is a cheap and simple remedy, and well worth trying by the fruit-growers of Ulster county. The fruit of the Hudson valley is found superior in size, flavor, tenderness and smoothness to that of the western part of the state, though the latter is pronounced more hardy. Our fruit-growers have the advantage over those farther west in distance and time from New York, and we hear no complaints of unmarketable stocks in this section. Their superior opportunities should stimulate them to make their fruit perfect.

PUBLIC OPINION.

It is much to be regretted that Senator Allison has seen fit to decline the position of Secretary of the Treasury tendered to him by the President-elect. We have stated the reasons why we considered the selection of Mr. Allison for this place a very judicious one on Mr. Harrison's part. We do not see where his equal is to be found, or one approaching him in qualifications for the office, always supposing that Senator Sherman is out of the list. We trust that Gen. Harrison will, as regards this office at least, look upon all claimants as *prima facie* disqualified. Here is one office which should seek the man, not the man the office.—*New York Evening Post.*

A straw which shows how the wind is blowing in politics across the border is the election of C. W. Colter in Haldimand county, Ontario, to fill a vacant seat in the Dominion House of Commons, on a platform of "unrestricted reciprocity" in trade with the United States. The election of one man on this issue is a small matter; the significant fact is that relations with the United States are coming to be the dominant question in Canadian politics.—*Buffalo Commercial Advertiser.*

Governor Hill tells our Albany correspondent that in writing a message "the chief difficulty is not what to say, but what not to say." Unconsciously, of course, but how admirably in that remark Governor Hill illustrated himself! He is just the sort of person who says not what he believes, nor what he considers best for the public, but what he thinks is politic and safe. He measures his words by the yardstick of the time-server and the vote-getter, and with him "what not to say" is decided by his notion of what it will cost at the polls.—*New York Tribune.*

The selection of Wanamaker supplies an interesting contrast with that of Blaine, inasmuch as there is not a trace of Republican opposition to him. That he will take the portfolio of Postmaster General is as certain as any political future event can be. Few will dispute that he is fitted for the place by splendid business training and by habits of unceasing industry, or that the public in general has confidence in his ability to keep the Department up to its present high standard. —*Utica Observer, Dem.*

"One Ash" is the name of John Bright's Rochdale country seat. It was so styled because of an ash tree which is a great favorite. There is many a home in Troy, which, considering the view from its front windows toward the close of the week, might also get the name "One Ash"—only it would be necessary to add "barrel" to make the title fully indicative of the prospect.—*Troy Standard.*

The New York *Tribune* notes that Massachusetts, from whom New York borrowed her system of managing prison labor, spent $303,000 net on her prisoners, above their earnings, while Ohio got an actual net profit of $15,183 from her prisons. New York is worse off than even Massachusetts. There has been a heap of costly false sentiment in prison management.—*Lowell Courier.*

The number of nominations sent by President Cleveland to the Senate for confirmation since the election, and most of them within a month, is stated at 400. These represent 400 election debts that Cleveland proposes to settle at public expense with the consent of the incoming Administration. No wonder the Senate has made up its mind to confirm none. —*Brooklyn Standard-Union.*

CARD OF THANKS.

If the proprietor of Kemp's Balsam should publish a card of thanks, containing expressions of gratitude which come to him daily, from those who have been cured of severe throat and lung troubles by the use of Kemp's Balsam, it would fill a fair-sized book. How much better to invite all to call on any druggist and get a free sample bottle that you may test for yourself its power. Large bottles 50c and $1.00.

So simple yet powerful when applied to pains and weaknesses—Hop Plasters. Don't neglect yourself.

FOR DYSPEPSIA and Liver Complaint, you have a printed guarantee on every bottle of Shiloh's Vitalizer. It never fails to cure. Sold by Frederick J. R. Clark.

MERIT WINS.

We desire so say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. VanDeusen Bros., Rondout, and F. J. R. Clarke, Kingston, druggists.

COMMON AIR.

The breath of life is conveyed to every part of the human lungs by means of a system of fine vessels called the bronchial tubes. When these are clogged up by an accumulation of mucous, so that breathing is very difficult, especially after any exertion, a person has the leading symptoms of Asthma or Phthisic. Besides this the tubes are often reduced to much less than their natural diameter by spasmodic contraction; often nearly suffocating the sufferer. Whether the case is of long standing or not. Dr. David Kennedy's Cherry Balsam is the most efficacious known remedy. It at once loosens the mucous matter, and causes it to be ejected by a free and easy expectoration. The Balsam in such cases should be taken in larger doses than for a common Cough, and no harm is done if some vomiting results. Take particular notice that if the disease is complicated with a dyspeptic state of the stomach Kennedy's Favorite Remedy must be used to correct the digestion. The case must be very severe that will not rapidly improve under this treatment.

I have been a sufferer from catarrh for the past eight years. Have tried a number of remedies advertised as "sure cures" without obtaining any relief. I had resolved never to take any other patent medicines, when a friend advised me to try Ely's Cream Balm. I did so with great reluctance, but can now testify with pleasure that after using it for six weeks I believe myself cured. It is a most agreeable remedy—an invaluable Balm.—Joseph Stewart, 624 Grand-avenue, Brooklyn.

BUCKLEN'S ARNICA SALVE.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all Skin Eruptions, and positively cures Piles, or no pay required. DO NOT THINK FOR A MOMENT

that catarrh will in time wear out. The theory is false. Men try to believe it because it would be pleasant if true, but it is not, as all know. Do not let an acute attack of cold in the head remain unsubdued. It is liable to develop into catarrh. You can rid yourself of the cold and avoid all chance of catarrh by using Dr. Sage's Catarrh Remedy. If already afflicted rid yourself of this troublesome disease speedily by the same means. At all druggists.

"It takes the tusks of 75,000 elephants a year," says an exchange, "to supply the world's piano-keys, billiard-balls and knife-blades." FOR WOMEN.

Are you wasting slowly but surely away from the effects of female weaknesses? Are you wan, pale, and nervous? Do you not sometimes feel that life is losing its attractions, and that you are gradually sinking into a decline which, if not taken in hand promptly, will end in an early death? Yes, you have felt all these things, and doubtless know that tens of thousands of once rosy-cheeked, plump, healthy girls and women go into their graves every year solely because these weaknesses were allowed to sap up the well springs of life till nature could no longer stand the strain. There is not a sensible maid, wife or mother who will not appreciate as more valuable than gold and precious stones Dr Fontaine's new remedy PALMETTO, which is safe, sure, and speedy in curing the worst case of female weakness.

Mailed secure from observation on receipt of $1.00 I also have a full line of elegant Toilet Goods, including Face Cream and Jellies, Wrinkle Paste Fattening Formula, Auburnine, Depilatory, Acnine, Freckle Lotion, etc. Development of a beautiful form a specialty. Sealed circulars, 4 cents.

THE CLAYTON ASSASSINATION.

Powell Clayton and W. H. H. Clayton, brothers of the Republican Congressman-elect of the Second Arkansas district who was murdered at Plummerville one week ago to-night while preparing the evidence on which to prove his rights as a member of the next House, have prepared a statement of the facts preceding and leading up to the murder which go show that it was for no other purpose than to prevent Clifton R. Breckenridge from being unseated, and that it was countenanced if not actually abetted by the highest Democratic authorities in the state.

The beginning of the story antedates the September election, when state officers were chosen. To prepare for that election a Democratic club was organized at Morrilton, the county seat of Conway county, with one Sowers, fresh from Mississippi, at its head. This club resolved itself into a militia company about two weeks before the election, and Gov. Hughes furnished it with state arms and a full supply of ammunition. The company paraded the streets of Morrillton, fully armed, every day. On the day of election they brought their guns, heavily loaded, and deposited them in a convenient place in the building where the election was held. In the morning the Republican Judge of Election was arrested on a false pretext, whereupon Sowers marched with his company to the polls and elected a Democrat to fill the vacancy. This made the board solidly Democratic. By a similar proceeding the places of the two Republican Judges at Plummerville were usurped, the result of which was the election of a full set of Democratic officials in Conway county, though the people are Republican by a large majority.

The Congressional election occurred two months later, John M. Clayton being the Republican and Clifton R. Breckinridge the Democratic candidate. The day before this election M. W. Benjamin, a prominent Republican lawyer of Little Rock, was sent to Conway county by the Republican State Committee to use his best efforts to secure a fair vote. On arriving at the depot at Morrilton he was set upon by a mob of several hundred citizens, who threw him from the car, assaulted and beat him, pulled handfuls of beard from his face, and finally shot him in the forehead, the bullet being flattened on his skull. Benjamin died soon afterwards, leaving his dying testimony with his wife that his death was due to the injuries inflicted by the Morrilton mob. On the day of the election the two Republican Judges were on hand at the Plummerville poll, but they were ignored by the Democratic Judge, who put in nomination two members of his own party, and upon a mere affirmative vote declared them elected without putting the negative. The Republican Judges, accompanied by the Republican Supervisor, undertook to open polls elsewhere, but were notified by five Democratic Deputy Sheriffs that they would not be permitted to do so. The Supervisor, whose name is Charles Wahl, thereupon returned to the place where the Democratic Judges were holding the election. When the polls closed the original Democratic Judge took the ballot-box and carried it from place to place through the town, Wahl persistently following. Becoming tired, the Judge finally returned to the polling place, which was soon afterwards invaded by four armed and masked men, who, having awed the Judges by presenting their pistols, seized the ballot-box and poll books and carried them away. This box contained 697 ballots, of which 572 were cast for John M. Clayton.

It was upon learning these unlawful acts that Mr. Clayton resolved to make a contest for his seat, and he employed a responsible citizen of Plummerville named Alexander to ascertain the actual number of votes cast for him in the precinct. Up to the 17th of December Alexander had obtained the names of 45 citizens who had voted for Clayton. Buton that night Supervisor Wahl was inveigled into a game of cards in a room that contained a glass door, and was shot in the neck and dangerously wounded by some one on the outside. This so frightened Alexander that he gave up the search and left the state. Wahl fled to Little Rock, where he now remains for safety For none of these crimes—the murder of Benjamin, the wounding of Wahl, and the stealing of the ballot boxes—has any person been arrested or any official reward offered. Hence they stand approved by Democratic authority.

Clayton went to Plummerville unarmed and unescorted, trusting to his opponent and neighbor, Mr. Breckinridge, to restrain his partisans. As he passed through Little Rock he said to a friend there that he did not believe he would be harmed. On the evening of January 29th, after several days spent in taking testimony, he was shot dead while in the act of sitting down to a desk to write a letter to his motherless children at Pine Bluff.

The brothers write: "We were unable to remove his body until 3:30 P. M. the next day, up to which time the Sheriff of the county had not appeared, being, in the language of the deputy, engaged in the more important business of collecting taxes. Nor had any citizen of the town made the slightest effort to trace or apprehend the murderer."

This murder, it should be stated, elects Clifton R. Breckenridge to Congress. He has not offered a dollar of reward to help along the pursit of the murderers, has not spoken a word in condemnation of act, or shown a single sign of unwillingness to take the seat that is the price of the blood of a worthy neighbor and fellow citizen. He has had too long and thorough training in the school of politics that relies upon murder as the final appeal, to be shocked at the thought that he is to be the beneficiary of such an act. This man is coming to Washington again to make laws for the North and for the nation. Does our civilization require such representatives? Can it afford to employ them?

HOW THE CROWN PRINCE DIED.

A succession of contradictory reports has been published concerning the mysterious death of Rudolph, the Crown Prince of Austria. When the first announcement was made, it was that he had died of sudden paralysis of the heart, brought on by attacks of rheumatism. This was a court falsehood, given out to cover the real cause of death. Then came the admission of suicide, which is probably the truth. But this was followed by the *World's* remarkable dispatch, asserting that he had been murdered by one of the highest noblemen in the Empire, because of improper attentions to his slayer's wife. There would be nothing incredible in this except for the fact that the circumstances disprove it, for the Hapsburgs are known to be and to have been always a "bad lot."

And now comes the most sensational statement of all. It is that the Prince was the victim of a duel on what is called "the American plan" in the East. He had become involved in an "affair of honor" with a high Austrian family, and a son of this family agreed to throw dice with him, the loser to die by his own hand within three months. The dice were thrown and the Prince lost. He waited till the three months were up, and then put a bullet through his brain. It is further reported that when the Prince's room was broken open the dead body of a beautiful young lady, the daughter of a wealthy Bohemian family, was also found. The Prince had killed her with a revolver before taking his own life. An attempt was made to keep this part of the tragedy secret, and the remains of the victim were privately conveyed to the home of her parents. This story is said to be generally credited in Vienna.

Fortunately, the imperial family of Austria is not lacking in "scions," and there is little danger that the throne will become vacant in consequence of Rudolph's death. The succession will now devolve upon the Archduke Charles Louis, in the event of Francis Joseph's death.

The conception that dueling with dice is the "American plan" is a misapprehension, and does the practitioners of the code injustice. The American plan is for the combatants to go bravely upon the field, face each other and fire—after the bullets have been carefully drawn by their seconds. In this way honor is vindicated, and both live to tell the tale of their heroic deed. Rudolph's act was only the American plan of suicide, which is to kill the woman in the case first.

GOOD APPLES.

The apple crop of 1888 was so large that thousands of barrels in Western New York are rotting in the hands of farmers and merchants because there is no market for them. While there is this abundance, it is a notable fact that there is a great deal of wormy and defective fruit, which decays quickly. This is attributed by *Vick's Magazine*, a valuable authority on horticulture, to the codlin moth, the habits of which Mr. Vick has carefully investigated. This moth, he insists, makes all the wormy apples. It is found that the practice of spraying the trees with water and paris green or london purple at the time the blossoms are fulling, and repeating the operation about two weeks later, "has the effect to so great an extent to prevent the deposit of the insect's eggs and to destroy the larva already hatched, that the crop is almost wholly saved from injury." Partial failures have only followed the falling of heavy rains immediately after the work has been done, if done thoroughly. The moths have become so numerous that it is impossible to raise a crop of sound fruit without spraying.

This is a cheap and simple remedy, and well worth trying by the fruit-growers of Ulster county. The fruit of the Hudson valley is found superior in size, flavor, tenderness and smoothness to that of the western part of the state, though the latter is pronounced more hardy. Our fruit-growers have the advantage over those farther west in distance and time from New York, and we hear no complaints of unmarketable stocks in this section. Their superior opportunities should stimulate them to make their fruit perfect.

PUBLIC OPINION.

It is much to be regretted that Senator Allison has seen fit to decline the position of Secretary of the Treasury tendered to him by the President-elect. We have stated the reasons why we considered the selection of Mr. Allison for this place a very judicious one on Mr. Harrison's part. We do not see where his equal is to be found, or one approaching him in qualifications for the office, always supposing that Senator Sherman is out of the list. We trust that Gen. Harrison will, as regards this office at least, look upon all claimants as *prima facie* disqualified. Here is one office which should seek the man, not the man the office.—*New York Evening Post.*

A straw which shows how the wind is blowing in politics across the border is the election of C. W. Colter in Haldimand county, Ontario, to fill a vacant seat in the Dominion House of Commons, on a platform of "unrestricted reciprocity" in trade with the United States. The election of one man on this issue is a small matter; the significant fact is that relations with the United States are coming to be the dominant question in Canadian politics.—*Buffalo Commercial Advertiser.*

Governor Hill tells our Albany correspondent that in writing a message "the chief difficulty is not what to say, but what not to say." Unconsciously, of course, but how admirably in that remark Governor Hill illustrated himself! He is just the sort of person who says not what he believes, nor what he considers best for the public, but what he thinks is politic and safe. He measures his words by the yardstick of the time-server and the vote-getter, and with him "what not to say" is decided by his notion of what it will cost at the polls.—*New York Tribune.*

The selection of Wanamaker supplies an interesting contrast with that of Blaine, inasmuch as there is not a trace of Republican opposition to him. That he will take the portfolio of Postmaster General is as certain as any political future event can be. Few will dispute that he is fitted for the place by splendid business training and by habits of unceasing industry, or that the public in general has confidence in his ability to keep the Department up to its present high standard. —*Utica Observer. Dem.*

"One Ash" is the name of John Bright's Rochdale country seat. It was so styled because of an ash tree which is a great favorite. There is many a home in Troy, which, considering the view from its front windows toward the close of the week, might also get the name "One Ash"—only it would be necessary to add "barrel" to make the title fully indicative of the prospect.—*Troy Standard.*

The New York *Tribune* notes that Massachusetts, from whom New York borrowed her system of managing prison labor, spent $303,000 net on her prisoners, above their earnings, while Ohio got an actual net profit of $15,183 from her prisons. New York is worse off than even Massachusetts. There has been a heap of costly false sentiment in prison management.—*Lowell Courier.*

The number of nominations sent by President Cleveland to the Senate for confirmation since the election, and most of them within a month, is stated at 400. These represent 400 election debts that Cleveland proposes to settle at public expense with the consent of the incoming Administration. No wonder the Senate has made up its mind to confirm none. —*Brooklyn Standard-Union.*

Salvation Oil, the greatest cure on earth for pain, as an anodyne has no equal in the market. It kills pain every time. Price 25 cents.

THE LIFE CURRENT.

Deprive the vegetable world of moisture and it pales, withers and dies; the whole earth becomes parched, and desolation pervades the landscape. Deprive the human system of pure blood and health is impossible, disease is inevitable. The skin becomes charged with repulsive humors, the lungs loaded with foreign secretions, fevers ensue, and, unless speedily arrested, death follows. Renew to healthy action the liver, the great blood-purifying gland, with Dr. Pierce's Golden Medical Discovery, and health flows through every avenue, restoring every organ to vigor. All druggists.

The blood is the source of health. Keep it pure by taking Hood's Sarsaparilla, which is peculiar in its curative power.

MARRY YOUR SONS WHEN YOU WILL, YOUR DAUGHTERS WHEN YOU CAN,

But in either case counsel them to use nothing but Hop Ointment for chapped hands and lips, sore nose, cold cracks and rough, pimply skin. Never fails. All druggists, 25 and 50 cents, or mail stamps to Hop Co., New-London, Conn.

CARD OF THANKS.

If the proprietor of Kemp's Balsam should publish a card of thanks, containing expressions of gratitude which come to him daily, from those who have been cured of severe throat and lung troubles by the use of Kemp's Balsam, it would fill a fair-sized book. How much better to invite all to call on any druggist and get a free sample bottle that you may test for yourself its power. Large bottles 50c and $1.00.

So simple yet powerful when applied to pains and weaknesses—Hop Plasters. Don't neglect yourself.

FOR DYSPEPSIA and Liver Complaint, you have a printed guarantee on every bottle of Shiloh's Vitalizer. It never fails to cure. Sold by Frederick J. R. Clark.

MERIT WINS.

We desire so say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. VanDeusen Bros., Rondout, and F. J. R. Clarke, Kingston, druggists.

COMMON AIR.

The breath of life is conveyed to every part of the human lungs by means of a system of fine vessels called the bronchial tubes. When these are clogged up by an accumulation of mucous, so that breathing is very difficult, especially after any exertion, a person has the leading symptoms of Asthma or Phthisic. Besides this the tubes are often reduced to much less than their natural diameter by spasmodic contraction; often nearly suffocating the sufferer. Whether the case is of long standing or not. Dr. David Kennedy's Cherry Balsam is the most efficacious known remedy. It at once loosens the mucous matter, and causes it to be ejected by a free and easy expectoration. The Balsam in such cases should be taken in larger doses than for a common Cough, and no harm is done if some vomiting results. Take particular notice that if the disease is complicated with a dyspeptic state of the stomach Kennedy's Favorite Remedy must be used to correct the digestion. The case must be very severe that will not rapidly improve under this treatment.

I have been a sufferer from catarrh for the past eight years. Have tried a number of remedies advertised as "sure cures" without obtaining any relief. I had resolved never to take any other patent medicines, when a friend advised me to try Ely's Cream Balm. I did so with great reluctance, but can now testify with pleasure that after using it for six weeks I believe myself cured. It is a most agreeable remedy—an invaluable Balm.—Joseph Stewart, 624 Grand-avenue, Brooklyn.

DO NOT THINK FOR A MOMENT

that catarrh will in time wear out. The theory is false. Men try to believe it because it would be pleasant if true, but it is not, as all know. Do not let an acute attack of cold in the head remain unsubdued. It is liable to develop into catarrh. You can rid yourself of the cold and avoid all chance of catarrh by using Dr. Sage's Catarrh Remedy. If already afflicted rid yourself of this troublesome disease speedily by the same means. At all druggists.

FOR WOMEN.

Are you wasting slowly but surely away from the effects of female weaknesses? Are you wan, pale, and nervous? Do you not sometimes feel that life is losing its attractions, and that you are gradually sinking into a decline which, if not taken in hand promptly, will end in an early death? Yes, you have felt all these things, and doubtless know that tens of thousands of once rosy cheeked, plump, healthy girls and women go into their graves every year solely because these weaknesses were allowed to sap up the well springs of life till nature could no longer stand the strain. There is not a sensible maid, wife or mother who will not appreciate as more valuable than gold and precious stones Dr Fontaine's new remedy PALMETTO, which is safe, sure, and speedy in curing the worst case of female weakness.

The Old Doctors

Drew blood, modern doctors cleanse it, hence the increased demand for Alteratives. It is now well known that most diseases are due not to over-abundance, but impurity of the blood, and it is equally well attested that no blood medicine is so efficacious as Ayer's Sarsaparilla.

"One of my children had a large sore break out on the leg. We applied simple remedies, for a while, thinking the sore would shortly heal. But it grew worse. We sought medical advice, and were told that an alterative medicine was necessary. Ayer's Sarsaparilla being

Recommended

above all others, we used it with marvelous results. The sore healed and health and strength rapidly returned."—J. J. Armstrong, Weimar, Texas.

"I find Ayer's Sarsaparilla to be an admirable remedy for the cure of blood diseases. I prescribe it, and it does the work every time."—E. L. Pater, M. D., Manhattan, Kansas.

"We have sold Ayer's Sarsaparilla here for over thirty years and always recommended it when asked to name the best blood-purifier."—W. T. McLean, Druggist, Augusta, Ohio.

"Ayer's medicines continue to be the standard remedies in spite of all competition."—T. W Richmond, Bear Lake, Mich.

RIKER'S EXPECTORANT

Acknowledged by all who have used it to be the most wonderful cure in the world for Coughs and Colds.

Is warranted to cure any ordinary cough or cold or your money is returned. A pleasant, swift and sure cure for Coughs and Colds.

If taken as soon as you feel that irritation or dryness of the throat, occasioned by a cold, four to six doses will cure.

It won't cure a horrible sore throat in one night, nor in fact will it cure anything in that space of time. It takes at least a day or so to cure a cold, but

IT GETS THERE ALL THE SAME.

It stops your cough almost at once, but should you stop taking it after two or three doses probably your cough would return. One thing you can always be sure of: Long before you have emptied the bottle you will be "all O. K."

As a trial of this truly wonderful medicine costs nothing, and as 95 cases out of every 100 will be cured it is well worth your while to at least make the trial.

★ BRIGHT'S DISEASE. ★

A Ten-Year-Old Child Saved After the Failure of Four Physicians.

My little girl, ten years of age, was taken sick in March, 1888, with scarlet fever. When recovering she took a severe cold, which developed Bright's Disease of the Kidneys. Her ankles, feet and eyes were terribly swollen, she had a burning fever, and all the symptoms of an aggravated case of Bright's Disease. Four of our best physicians attended her, but without success, and

Her Life was Despaired of.

But a mother's love and prayers surmount all difficulties, and I determined to try Dr. David Kennedy's Favorite Remedy, made at Rondout, N. Y. This was a last resort, and I hoped, although my little daughter's case was a very severe one, that the Favorite Remedy would do for her what it had done for others whose condition had not been, seemingly, as hopeless. How happy I am that I determined upon this course—for an improvement was at once perceptible. The fever left her—her appetite improved—she gained six pounds in a short time, and one by one the well known and dreaded symptoms of the disease left her. Words fail to express my gratitude and I cannot too earnestly recommend the Favorite Remedy. It was

A MARVELOUS RECOVERY

and is due entirely to the Favorite Remedy, which was the only medicine taken after her case was abandoned by the physicians.

Mrs. Laura A. Kempton, West Rutland, Vermont.

The diseases that follow Scarlet Fever, Measles, Diphtheria and various other complaints often leave behind them sequellas of the most obstinate and dangerous character. To expel all traces of such disorders, tone up the various organs, and fill the veins with pure and nutritious blood, use

OUTSPOKEN SCIENCE.

The following statement came voluntarily to the proprietors of the great preparation of which it speaks. They have never had the pleasure of meeting the eminent scientist who wrote it, but appreciate the honest candor which prompted it:

To Whom it May Concern:

This may certify that as the result of extended researches I am able to state that, in the Duffy Malt Whiskey alone, there is to be had such a pure article as I have described in my paper on "A Scientific Specific for Intemperance," in the North American Review for July, 1888. It is, of course, a well-known fact that we may procure, as a laboratory product a whiskey that shall be free of fusil oil; but it is with pride that I state that alone of commercial whiskies the Duffy Malt declines to injure the brain and the system.

LINCOLN'S MAIDEN SPEECH,

AS FURNISHED BY JUDGE BELL, OF MOUNT CARMEL, ILL.

When Lincoln First Advocated Protective Tariff He Was Not a Lawyer—What He is Reported to Have Said, Before He Became a Lawyer.

By Telegraph to The Freeman.

MOUNT CARMEL, Ill., Feb. 5.—Judge Bell, of this place, furnishes the following maiden speech of Abraham Lincoln, delivered in Poppsville, near Springfield, nearly 50 years ago. Mr. Lincoln was not then a lawyer and had no intention of becoming one. He had then made up his mind to learn the blacksmith trade. His genius was recognized, however, and he was suddenly nominated for the Legislature. His first speech was as follows:

"GENTLEMEN AND FELLOW CITIZENS: I presume you all know whom I am. I am humble Abraham Lincoln. I have been solicited by many friends to become a candidate for the Legislature. My politics are short and sweet. I am in favor of a National Bank; I am in favor of the internal improvement system, and a high protective tariff. These are my sentiments and political principles. If elected, I shall be thankful; if not, it will be all the same."

INTERESTING DECISION RENDERED.

In "Liquor Cases" Verdicts Must be Found Upon Facts, Not Suspicions.

By Telegraph to The Freeman.

DES MOINES, Ia., Feb. 5—An interesting decision was made by the State Supreme Court yesterday, reversing the judgment of the lower court in the case of A. C. Hoagland, a Washington County pharmacist. The defendant and W. Hoagland were jointly indicted upon a charge of maintaining a nuisance by unlawful traffic in intoxicating liquors. They were jointly tried and A. C. Hoagland was convicted. Hoagland is a practicing physician at Brighton and owns a drug store. He obtained a permit in December, 1886, from the Supervisors allowing him to sell liquor for medicinal and other purposes not forbidden by law. Several sales were made and a jury held that the druggist had violated the law, although the witnesses testified that all his customers were ill and needed the liquor. The lower Court fined the druggist $1,000. The Supreme Court says: "The finding that the defendant had reason to believe the applications to purchase were not made in good faith is contrary to every fact testified to by every witness in the case. It is equivalent to finding that every witness for the State, as well as the defendant, were willful and corrupt perjurers. Verdicts must be found upon facts, not upon suspicion."

Debate—Subject: "Shall the Presidential Term of Office be Extended to Six Years?"

Years ago a well-known farmer living near Mt. Zion made the Trustees of the Binghamton-street school district an offer of an acre of land and a subscription of $500 if they would build a school house in that district that would cost $5,000. This they refused to do. Since that time the district has paid out for building and repairs an amount of money equal to the sum stated by the enterprising agriculturist and are now confronted with the fact that a new school building must be built to accommodate the wants of the neighborhood.

A LADY'S CHANCES OF MARRYING.

Every woman has a chance of "catching a husband," but it is conceded that young ladies between twenty and twenty-five years of age are more likely to draw the matrimonial prizes. However, it is not an unusual thing to hear of the marriage of a lady who has passed the three-quarter century mark. yet, how can a woman, weak, dispirited, enervated and tormented by diseases common to her sex, hope to become a happy wife and mother? Of course she cannot; yet by the magic aid of Dr. Pierce's Favorite Prescription, all these obstacles are swept away. As a powerful, invigorating tonic, Dr. Pierce's Favorite Prescription imparts strength to the whole system, and to the womb and its appendages, in particular. For over-worked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop girls," housekeepers, nursing mothers, and feeble women generally, it is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

The Old Doctors

Drew blood, modern doctors cleanse it, hence the increased demand for Alteratives. It is now well known that most diseases are due not to over-abundance, but impurity of the blood, and it is equally well attested that no blood medicine is so efficacious as Ayer's Sarsaparilla.

"One of my children had a large sore break out on the leg. We applied simple remedies, for a while, thinking the sore would shortly heal. But it grew worse. We sought medical advice, and were told that an alterative medicine was necessary. Ayer's Sarsaparilla being

Recommended

above all others, we used it with marvelous results. The sore healed and health and strength rapidly returned."—J. J. Armstrong, Weimar, Texas.

"I find Ayer's Sarsaparilla to be an admirable remedy for the cure of blood diseases. I prescribe it, and it does the work every time."—E. L. Pater, M. D., Manhattan, Kansas.

"We have sold Ayer's Sarsaparilla here for over thirty years and always recommended it when asked to name the best blood-purifier."—W. T. McLean, Druggist, Augusta, Ohio.

"Ayer's medicines continue to be the stand ard remedies in spite of all competition."—T. W Richmond, Bear Lake, Mich.

Acknowledged by all who have used it to be the most wonderful cure in the world for Coughs and Colds.

If taken as soon as you feel that irritation or dryness of the throat, occasioned by a cold, four to six doses will cure.

It won't cure a horrible sore throat in one night, nor in fact will it cure anything in that space of time. It takes at least a day or so to cure a cold, but

IT GETS THERE ALL THE SAME.

It stops your cough almost at once, but should you stop taking it after two or three doses probably your cough would return. One thing you can always be sure of: Long before you have emptied the bottle you will be "all O. K."

As a trial of this truly wonderful medicine costs nothing, and as 95 cases out of every 100 will be cured it is well worth your while to at least make the trial.

★ BRIGHT'S DISEASE. ★

A Ten-Year-Old Child Saved After the Failure of Four Physicians.

My little girl, ten years of age, was taken sick in March, 1888, with scarlet fever. When recovering she took a severe cold, which developed Bright's Disease of the Kidneys. Her ankles, feet and eyes were terribly swollen, she had a burning fever, and all the symptoms of an aggravated case of Bright's Disease. Four of our best physicians attended her, but without success, and

Her Life was Despaired of.

But a mother's love and prayers surmount all difficulties, and I determined to try Dr. David Kennedy's Favorite Remedy, made at Rondout, N. Y. This was a last resort, and I hoped, although my little daughter's case was a very severe one, that the Favorite Remedy would do for her what it had done for others whose condition had not been, seemingly, as hopeless. How happy I am that I determined upon this course—for an improvement was at once perceptible. The fever left her—her appetite improved—she gained six pounds in a short time, and one by one the well known and dreaded symptoms of the disease left her. Words fail to express my gratitude and I cannot too earnestly recommend the Favorite Remedy. It was

A MARVELOUS RECOVERY

and is due entirely to the Favorite Remedy, which was the only medicine taken after her case was abandoned by the physicians.

Mrs. Laura A. Kempton, West Rutland, Vermont.

The diseases that follow Scarlet Fever, Measles, Diphtheria and various other complaints often leave behind them sequellas of the most obstinate and dangerous character. To expel all traces of such disorders, tone up the various organs, and fill the veins with pure and nutritious blood, use

OUTSPOKEN SCIENCE.

The following statement came voluntarily to the proprietors of the great preparation of which it speaks. They have never had the pleasure of meeting the eminent scientist who wrote it, but appreciate the honest candor which prompted it:

To Whom it May Concern:

This may certify that as the result of extended researches I am able to state that, in the Duffy Malt Whiskey alone, there is to be had such a pure article as I have described in my paper on "A Scientific Specific for Intemperance," in the North American Review for July, 1888. It is, of course, a well-known fact that we may procure, as a laboratory product a whiskey that shall be free of fusil oil; but it is with pride that I state that alone of commercial whiskies the Duffy Malt declines to injure the brain and the system.

LINCOLN'S MAIDEN SPEECH,

AS FURNISHED BY JUDGE BELL, OF MOUNT CARMEL, ILL.

When Lincoln First Advocated Protective Tariff He Was Not a Lawyer—What He is Reported to Have Said, Before He Became a Lawyer.

By Telegraph to The Freeman.

MOUNT CARMEL, Ill., Feb. 5.—Judge Bell, of this place, furnishes the following maiden speech of Abraham Lincoln, delivered in Poppsville, near Springfield, nearly 50 years ago. Mr. Lincoln was not then a lawyer and had no intention of becoming one. He had then made up his mind to learn the blacksmith trade. His genius was recognized, however, and he was suddenly nominated for the Legislature. His first speech was as follows:

"GENTLEMEN AND FELLOW CITIZENS: I presume you all know whom I am. I am humble Abraham Lincoln. I have been solicited by many friends to become a candidate for the Legislature. My politics are short and sweet. I am in favor of a National Bank; I am in favor of the internal improvement system, and a high protective tariff. These are my sentiments and political principles. If elected, I shall be thankful; if not, it will be all the same."

INTERESTING DECISION RENDERED.

In "Liquor Cases" Verdicts Must be Found Upon Facts, Not Suspicions.

By Telegraph to The Freeman.

DES MOINES, Ia., Feb. 5—An interesting decision was made by the State Supreme Court yesterday, reversing the judgment of the lower court in the case of A. C. Hoagland, a Washington County pharmacist. The defendant and W. Hoagland were jointly indicted upon a charge of maintaining a nuisance by unlawful traffic in intoxicating liquors. They were jointly tried and A. C. Hoagland was convicted. Hoagland is a practicing physician at Brighton and owns a drug store. He obtained a permit in December, 1886, from the Supervisors allowing him to sell liquor for medicinal and other purposes not forbidden by law. Several sales were made and a jury held that the druggist had violated the law, although the witnesses testified that all his customers were ill and needed the liquor. The lower Court fined the druggist $1,000. The Supreme Court says: "The finding that the defendant had reason to believe the applications to purchase were not made in good faith is contrary to every fact testified to by every witness in the case. It is equivalent to finding that every witness for the State, as well as the defendant, were willful and corrupt perjurers. Verdicts must be found upon facts, not upon suspicion."

"WE POINT WITH PRIDE"

In Lowell, Mass., where it is prepared there is more of Hood's Sarsaparilla sold than of all other medicines, and it has given the best of satisfaction since its introduction ten years ago. A LADY'S CHANCES OF MARRYING.

Every woman has a chance of "catching a husband," but it is conceded that young ladies between twenty and twenty-five years of age are more likely to draw the matrimonial prizes. However, it is not an unusual thing to hear of the marriage of a lady who has passed the three-quarter century mark. yet, how can a woman, weak, dispirited, enervated and tormented by diseases common to her sex, hope to become a happy wife and mother? Of course she cannot; yet by the magic aid of Dr. Pierce's Favorite Prescription, all these obstacles are swept away. As a powerful, invigorating tonic, Dr. Pierce's Favorite Prescription imparts strength to the whole system, and to the womb and its appendages, in particular. For over-worked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop girls," housekeepers, nursing mothers, and feeble women generally, it is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

WILL YOU SUFFER with Dyspepsia and Liver Complaint? Shiloh's Vitalizer is guaranteed to cure you. For sale by F. J. R. Clarke, Kingston.

A LUCKY MAN.

Mr. Lyman Crawford, Druggist, of Springfield, Mass., says: For years I was afflicted with kidney disease in its worst form, and I state, with a perfect recollection of all that was done for me, that Dr. David Kennedy's Favorite Remedy, of Rondout, N. Y., gave me permanent relief.

If your druggist does not keep the medicine, address the proprietor, Rondout, N. Y.

RATHER ROUGH ON MOONEY, P. M.

A Rondout Woman who Wanted "to Know, You Know," Certain Facts.

Postmaster Mooney, of Rondout, had a lively experience one day recently. A woman, whose husband had received a "warning letter" from alleged White Caps, walked into the Post-Office and authoritively demanded to know the whereabouts of the Postmaster. Mr. Mooney received the woman in his private office, and the following occurred:

"Do you see that letter? Read it!"

The Postmaster read it and said: "I see it is from the White Caps. They have warned your husband that unless he leaves the State within 10 days he will be flogged within an inch of his life."

"That's it. That's just what it says. Now who sent that letter to my husband?"

"I am sure madam I cannot tell."

"Yes you can, too. Who put that skull and cross bones at the top of the letter?"

"Madam, I don't know any more about it than you do yourself."

"Don't you dare tell me that! Didn't that letter come through your Post-Office?"

"It did."

"There! I knew it! You knew who sent it and what the letter said."

"But —"

"Don't you but me. I want to know who sent it."

"Madam, I again say that I do not know. The letter evidently came from Stamford, as you can see for yourself by the postscript."

"I don't care anything about the postscript; what I want to find out who is the White Cap that dared to threaten my husband. I think you know, but if you don't then I want you to put a detective on the track of the miserable wretch. If any of them White Cap fellers comes around my house I'll scald them."

The woman left the office and Postmaster Mooney wiped the perspiration from his forehead.

Several men were injured by a hand-car, carrying 35 men, *en route* from Matteawan to Dutchess Junction, jumping the track on Saturday morning. Among the injured were Frank Gardiner, Hugh Miller, C. Dorrey, N. Serrine, W. Heaney and G. D. Holmes.

Mr. Tomkins was enjoying the pleasures of tobogganing with a number of ladies and gentlemen. On one of the descents of the steep incline he fell from his toboggan and rolled into a stone wall. A sharp stone pierced his hip and he was hurt so badly that he was unable to return home last night.

BEGINNING TO CUT ICE.

THE PROGRESS OF THE WORK 'LONG SHORE AND INLAND.

Dealers Who Have Great Expectations and A Small Army of Men Who Are Anxiously Looking for Work—What Correspondents Say.

And they all with one consent began to rejoice.

The outlook for securing ice crops, on ponds and creeks at least, was more favorable, this afternoon, before the rain began falling, than at any previous time this winter. "Ice notes" gathered by reporters and correspondents of this journal follow:

MANY TONS CUT TO-DAY.

Tons and tons of ice were cut on lakes and ponds in the tier of counties bordering on the Hudson and inland to day. In the Catskill and Shawangunk mountain ranges hundreds of men are employed. The ice is being carted or shipped by rail to the River front. In instances pond owners have received handsome amounts for the cakes that are now being handled.

"MARKING" UP AT TROY.

Ice dealers commenced marking and ploughing on the Hudson River above the State dam at Troy to-day. The ice is from five to nine inches thick. The ferry-boat Rath has been placed in winter quarters and pedestrians are crossing the ice between Troy and West Troy.

THE OUTLOOK ALONG THE HUDSON.

Special dispatches to THE FREEMAN from points along the Hudson this afternoon stated that the cold snap of yesterday and this morning has also brightened the prospects for ice harvesters along shore. The River is now closed from a point north of Rondout to Albany with ice from one to five inches in thickness. At Schodack seven inches of ice is reported. Another night of zero weather would permit owner of houses there to commence storing. The Glasco Ice Company has seven inches in front of its property and will cut as soon as eight inches forms. The Mutual Benefit Ice Company is cutting ice seven inches in thickness from the flats back of the Hudson River Railroad at Barrytown. Very few of the companies will wait for more than seven or eight inches of ice before commencing to store.

HARD ON POOR FOLKS.

Though the weather has been mild and the cost of fuel to the poor has been comparatively light, still there has been a large amount of suffering on account of no ice money being in circulation. There are nearly 25,000 men along the Hudson and inland who depend for sustenance for about two months of the winter on the few dollars they earn in the ice harvest. In a full crop year about $500,000 are expended in storing it. To keep this amount of money out of the pockets of the poor makes many cases of want. Every branch of business in the River towns feel the lack of money and mourns the "dull times." The most of the men who work on the brick-yards in the summer depend on this ice work in winter, and with them the most of the distress is felt, as the past fall was a poor one for them and many quit work with a store bill to "comfort" them in cold weather.

GENERAL ICE NOTES.

Ice is being cut on the Underhill Pond in Hudson.

The ice on Morgan Lake, Dutchess County, is nine inches thick.

The ice on the Hudson River at Four-Mile-Point is six inches in thickness.

On portions of the Rondout Creek the ice averages two and three inches in thickness.

Ice companies in New-York City have purchased the ice on 20 ponds in Sullivan County.

Arrangements have been made to cut ice from Round Lake and Lake Champlain, for the New-York market.

The Knickerbocker Ice Company will cut ice in Lake Repose, near Ulster Park, the latter part of this week.

The Knickerbocker Ice Company cuts and ships about 25 car-loads of ice a day from points along the Erie Railroad.

The Ulster & Delaware Railroad Company has contracted for many tons of ice with B. S. Mayham, of South-Gilboa.

The correspondent of THE FREEMAN at Tivoli writes: "Ice has been harvested in this vicinity nine inches in thickness."

The Knickerbocker Ice Company has "engaged" the ice on Spring Lake, along the Hartford, Connecticut & Western Railroad.

The ice on the Hudson River at Turkey Point is reported to be four inches in thickness, and a short distance north of that point five and six inches.

The correspondent of THE FREEMAN at Palenville writes: "Nearly all the ice houses in this place are now filled. The few remaining will be filled this week."

North & Schoonmaker, of Rondout, began the filling of the barge F. H. Close with ice, this morning. The ice is cut in Mayhem's Pond, South-Gilboa. Ten cars, loaded, with the frozen blocks, arrived here last night. The ice is 12 inches in thickness.

CHARGES AGAINST AN UNDERTAKER.

Tried and Acquitted—Then Arrested Again—Another Trial on Thursday.

John J. Murphy, a Rondout undertaker, was arraigned before Justice McKenzie, in Port-Ewen, to-day, charged with violating the act of the Board of Supervisors in regard to burial permits. He was tried, found not guilty and discharged.

He was re-arrested on a complaint for violating the laws of the Board of Health of the town of Esopus.

The case will be tried by jury before Justice McKenzie on Thursday afternoon.

The complaint was made by Supervisor Benton, of Esopus.

It is claimed that Murphy buried a child in that town without a permit.

ABOUT HORSES AND THEIR OWNERS.

A Word or Two About "Close Clipping"—The "Fastest Walking Nag."

Lewis Hook, of Ellenville, claims to have the fastest walking horse in the counties of Ulster, Orange or Sullivan.

An attempt is being made among horsemen to raise $3,000 for a monument to mark the grave of Rysdyk's Hambletonian, at Chester, Orange County.

How strange that the man who thinks to improve on nature by clipping his horse in winter, never practices his theory by wearing a linen duster in place of an overcoat.—*Exchange.*

ANOTHER OF DEMPSEY'S FISH STORIES.

In Some Respects It Seems to be the Tallest He Has Yet Related.

William Dempsey, of Rondout, who is looked upon by his friends as an encyclopaedia of strange piscatorial events, related the following this afternoon: "Four shad hat had basked in the shade of orange trees that line the St. John's River, Florida, and had scented fragrant magnolia blossoms as they fell into the limpid stream, made a mistake of several weeks as to the time of year. They wagged with their tails a farewell to the tail-end of the Sunny South, set their fins in motion and soon were in the Gulf Stream on their way north. On Friday a lone fisherman at Sandy Hook cast his net into the sea and caught the four shad that had enjoyed such a pleasant swim in the warm Gulf stream. The fish were shipped to Rondout, and yesterday they were eaten and pronounced par excellence. The shads' backs were broader than the shad usually caught in the Hudson River, and the fact that they were taken off Sandy Hook at this season of the year is an odd occurrence, and shows how foolish the fish were to leave Florida before other Northern boarders there began to leave for home. In my opinion some fish are as dumb as some men I know."

The Influence of a Bad Example.

A Kingston woman, speaking of the injury done by injudicious out-of-door relief by Alms Commissioners, relates the following: "There was a hard-working woman with a large family in Kingston. She supported them by washing. She appeared contented with her lot. One day she learned that a family near her, the members of which were not industrious, were receiving support from the Alms Commissioners. She began to complain of her lot, and said: 'If that family is helped when they won't work I certainly ought to be helped when I am trying so hard to get along.' The more she thought about it the more discontented she became. Finally she went to the Alms Commissioners, asked for help, and has been regularly aided ever since."

In Justice's Court.

A civil suit entitled Cornelius Davis vs. Matthew Lasher and Abram Lasher, was tried in Justice DuBois' Court, Rondout, this afternoon. Davis claimed $35 from the Lashers for use of harness, wagon, hay, etc. Before the summons was served on the defendants the Lashers took out a summons in Kingston to serve on Davis for the recovery of $96, which they claimed Davis owed them for board. Before it was served the summons expired, and before it could be renewed Davis served a summons on the Lashers to appear in Court in Rondout.

Sporting.

Hon. Levi P. Morton will stock one of the artificial lakes at Ellerslie with California trout next month.

A Homing Pigeon Club has been formed by young men in Peekskill. It is expected much pleasure and profit will result from the new pastime.

The first heat in the 10-mile race for the Carnival cup at Montreal, was skated at 10 o'clock last night in the Dominion Rink. There were five entries. H. Latremouille won.

IN THE LOCAL INDUSTRIAL FIELD.

Work is reported brisk in the knife shops at Walden.

There is a rush of orders at the Wright Engine Works, Newburgh.

PILOTS MAKE MERRY HERE.

THEY INSTALL NEW OFFICERS AND ENJOY A BANQUET.

Good Cheer and Reminiscences—Remarks Made for the Good of the Order—The Objective Points of the Watermen—Some History.

And kept the noiseless tenor of their way.—*Horace.*

The members of Harbor No. 3, American Brotherhood of Pilots, of Rondout, had a profitable and a merry time last night. About 50 of these men, whose line of duty often compels them to pierce the gloom of the darkest night and face wind and storm, gathered in their rooms in Odd Fellows' Hall, on The Strand, and witnessed the installation of the following officers, who were recently elected for the ensuing year:

THE OFFICERS INSTALLED.

George B. Gage	Captain
Julius Hyde	First Pilot
A. O. Parsells	Second Pilot
William S. VanKeuren	Purser
Alfred Davis	Purser's Clerk
William B. Barnett	Captain's Clerk
Gustavus Hammond	Chaplain
Jacob M. Rider, John Woodruff	Starboard Quartermasters.
John Hamilton, Joseph Rightmeyer	Port Quartermasters.
George E. DuBois	Forward Deck Watchman
Chester Wells	Saloon Watchman

SNUG QUARTERS IN THE MANSION HOUSE.

Disappointment was expressed at the absence of Frank Risendorf, Grand Captain of all the Harbors, who was scheduled to install the new officers. Julius Hyde installed the Captain, who in turn installed the other officers. After the exercises at the hall were concluded the pilots found snug quarters in the Mansion House, where they partook of a banquet. Among the visitors present were:

SOME OF THE PILOTS PRESENT.

Pilots John Anthony, Harbor No. 1, New-York, propeller S. L. Crosby; W. C. Shultis, Harbor No. 1, steamboat Oswego; Alonzo Barber, Harbor No. 7, Albany, propeller George H. Sharpe; J. B. Brannigan, Harbor No. 12, West Shore ferry-boat Oswego; Martin Cramer, Harbor No. 12, propeller Clara; W. M. Sloan, Harbor No. 12, Superintendent West Shore Stores.

THE "GOOD OF THE ORDER."

The best of cheer prevailed in the banquet hall. The coast was clear, and nothing occurred to obstruct the Pilots' passage of pleasure. John E. Lasher, the proprietor of the hotel, was assiduous in his attentions to the watermen. A more solid-looking body of men would be hard to find. Many steamboat reminiscences were related. Remarks pertaining to the good of the order were made by W. M. Sloan, Jacob DuBois, J. B. Brannigan, W. C. Shultis and T. Donovan. Mr. Sloan said that he had visited nearly all the Harbors in the order, but none had impressed him more favorably than the Rondout Harbor. He alluded to the organization's healthy and rapid growth, and said that it was sailing along in the right channel for future prosperity.

AMERICAN BROTHERHOOD OF PILOTS.

The order of American Brotherhood of Pilots was organized about three years ago. There are now 12 Harbors. No. 1 is in New-York. Rondout Harbor, No. 3, was organized on June 4, 1887. It started off with 24 members. It now numbers 65. The order is a secret, social and benevolent one. One of its staunch principles is "Mutual protection to its members and protection to life and property." Since the inception of the order much good has been done by its members, who are striving to make the American Brotherhood of Pilots one of the foremost benevolent organizations in this country.

THE STORY OF A KINGSTON FELINE.

It Contains Nothing Extraordinary, Yet It Reads Well and is True.

Christopher Snyder, of Kingston, is the owner of a cat that is 19 years old. Though deaf and somewhat inactive, puss is in good health. It lives mostly on milk. Mr. Snyder tells a number of anecdotes about the intelligence of this cat. He was the owner of a little "yaller" dog. The dog and cat became great friends. When an enemy of the cat came in the yard the dog would fly at it and drive it away. During the battle the cat would walk gravely in the rear of the dog, as though urging it on. After the enemy had been vanquished, the cat and dog would touch noses, and then trot back to the house, side by side. The cat had the mischievous habit of killing chickens at one time. A little bantam hen was the mother of a brood of chickens. The cat would stealthily watch the chickens and when Mr. Snyder was not about, pounce on one and kill it. One day when the cat was lying in wait near the coop, Mrs. Snyder raised the coop and let out the bantam. The little hen mother had been watching the cat through the bars of the coop for several days unable to protect its young, and the moment it was free it sprang at the cat with great fury. The charge was so sudden that puss was entirely taken by surprise, and after a slight defense turned and ignominiously fled. The bantam pursued the cat for some distance. Ever after when a chicken came near, the cat would look at it as much as to say: "You can't play that game twice," and walk out of the way.

Rheumatism

According to recent investigations is caused by excess of the lactic acid in the blood. This acid attacks the fibrous tissues, particularly in the joints, and causes the local manifestations of the disease, pains and aches in the back and shoulders, and in the joints at the knees, ankles, hips and wrists. Thousands of people have found in Hood's Sarsaparilla a positive and permanent cure for rheumatism. This medicine, by its purifying and vitalizing action, neutralizes the acidity of the blood and also builds up and strengthens the whole body.

Hood's Sarsaparilla

"I was laid up for six months with rheumatism and used many kinds of medicines without good result till one of my neighbors told me to take Hood's Sarsaparilla. When I had used half a bottle I felt better and after taking two bottles I think I was entirely cured, as I have not had an attack of rheumatism since." EUGENE H. DIXON, Rossville, Staten Island, N. Y.

Cures Rheumatism

"I had attacks of rheumatism which increased in severity. I took three bottles of Hood's Sarsaparilla and I am pleased to say the rheumatic pains ceased, my appetite and digestion became better and my general health greatly improved. I am firmly convinced that Hood's Sarsaparilla cured me, as I have felt no recurrence of this blood disease." WM. SCOON, Geneva, N. Y.

HON. J. P. BASS,

now President Eastern Maine State Fair Association, ex-Mayor, of Bangor, business man and capitalist, is one of the best known men in Maine. He had, not long ago, a severe attack of dyspepsia, which took him from all business, placing him under treatment. He went South and West in search of health, but failed to find it. Could eat no solid food, and became reduced in flesh from 160 to 118 pounds. Spent thousands of dollars, still no relief. At this time met Dr. Brown, who had just returned from Europe. The latter undertook a cure.

He expanded and strengthened the walls of the stomach of the patient, cleansed them of foreign accumulations; reduced that "growing sensation;" revived the liver and kidneys, exciting them to a healthy action, and toned up the blood until Mr. Bass began to regain former good health. Under this treatment he became entirely well, and that year, in connection with Hon. G. B. Loring and other officials of the New England Fair Association, managed their great fair. Mr. Bass says Dr. Brown used nothing in his case but

RATHER ROUGH ON MOONEY, P. M.

A Rondout Woman who Wanted "to Know, You Know," Certain Facts.

Postmaster Mooney, of Rondout, had a lively experience one day recently. A woman, whose husband had received a "warning letter" from alleged White Caps, walked into the Post-Office and authoritively demanded to know the whereabouts of the Postmaster. Mr. Mooney received the woman in his private office, and the following occurred:

"Do you see that letter? Read it!"

The Postmaster read it and said: "I see it is from the White Caps. They have warned your husband that unless he leaves the State within 10 days he will be flogged within an inch of his life."

"That's it. That's just what it says. Now who sent that letter to my husband?"

"I am sure madam I cannot tell."

"Yes you can, too. Who put that skull and cross bones at the top of the letter?"

"Madam, I don't know any more about it than you do yourself."

"Don't you dare tell me that! Didn't that letter come through your Post-Office?"

"It did."

"There! I knew it! You knew who sent it and what the letter said."

"But—"

"Don't you but me. I want to know who sent it."

"Madam, I again say that I do not know. The letter evidently came from Stamford, as you can see for yourself by the postscript."

"I don't care anything about the postscript; what I want to find out who is the White Cap that dared to threaten my husband. I think you know, but if you don't then I want you to put a detective on the track of the miserable wretch. If any of them White Cap fellers comes around my house I'll scald them."

The woman left the office and Postmaster Mooney wiped the perspiration from his forehead.

BEGINNING TO CUT ICE.

THE PROGRESS OF THE WORK 'LONG SHORE AND INLAND.

Dealers Who Have Great Expectations and A Small Army of Men Who Are Anxiously Looking for Work—What Correspondents Say.

And they all with one consent began to rejoice.

The outlook for securing ice crops, on ponds and creeks at least, was more favorable, this afternoon, before the rain began falling, than at any previous time this winter. "Ice notes" gathered by reporters and correspondents of this journal follow:

MANY TONS CUT TO-DAY.

Tons and tons of ice were cut on lakes and ponds in the tier of counties bordering on the Hudson and inland to-day. In the Catskill and Shawangunk mountain ranges hundreds of men are employed. The ice is being carted or shipped by rail to the River front. In instances pond owners have received handsome amounts for the cakes that are now being handled.

"MARKING" UP AT TROY.

Ice dealers commenced marking and ploughing on the Hudson River above the State dam at Troy to-day. The ice is from five to nine inches thick. The ferry-boat Rath has been placed in winter quarters and pedestrians are crossing the ice between Troy and West Troy.

THE OUTLOOK ALONG THE HUDSON.

Special dispatches to THE FREEMAN from points along the Hudson this afternoon stated that the cold snap of yesterday and this morning has also brightened the prospects for ice harvesters along shore. The River is now closed from a point north of Rondout to Albany with ice from one to five inches in thickness. At Schodack seven inches of ice is reported. Another night of zero weather would permit owner of houses there to commence storing. The Glasco Ice Company has seven inches in front of its property and will cut as soon as eight inches forms. The Mutual Benefit Ice Company is cutting ice seven inches in thickness from the flats back of the Hudson River Railroad at Barrytown. Very few of the companies will wait for more than seven or eight inches of ice before commencing to store.

HARD ON POOR FOLKS.

Though the weather has been mild and the cost of fuel to the poor has been comparatively light, still there has been a large amount of suffering on account of no ice money being in circulation. There are nearly 25,000 men along the Hudson and inland who depend for sustenance for about two months of the winter on the few dollars they earn in the ice harvest. In a full crop year about $500,000 are expended in storing it. To keep this amount of money out of the pockets of the poor makes many cases of want. Every branch of business in the River towns feel the lack of money and mourns the "dull times." The most of the men who work on the brick-yards in the summer depend on this ice work in winter, and with them the most of the distress is felt, as the past fall was a poor one for them and many quit work with a store bill to "comfort" them in cold weather.

GENERAL ICE NOTES.

Ice is being cut on the Underhill Pond in Hudson.

The ice on Morgan Lake, Dutchess County, is nine inches thick.

The ice on the Hudson River at Four-Mile-Point is six inches in thickness.

On portions of the Rondout Creek the ice averages two and three inches in thickness.

Ice companies in New-York City have purchased the ice on 20 ponds in Sullivan County.

Arrangements have been made to cut ice from Round Lake and Lake Champlain, for the New-York market.

The Knickerbocker Ice Company will cut ice in Lake Repose, near Ulster Park, the latter part of this week.

The Knickerbocker Ice Company cuts and ships about 25 car-loads of ice a day from points along the Erie Railroad.

The Ulster & Delaware Railroad Company has contracted for many tons of ice with B. S. Mayham, of South-Gilboa.

The correspondent of THE FREEMAN at Tivoli writes: "Ice has been harvested in this vicinity nine inches in thickness."

The Knickerbocker Ice Company has "engaged" the ice on Spring Lake, along the Hartford, Connecticut & Western Railroad.

The ice on the Hudson River at Turkey Point is reported to be four inches in thickness, and a short distance north of that point five and six inches.

The correspondent of THE FREEMAN at Palenville writes: "Nearly all the ice houses in this place are now filled. The few remaining will be filled this week."

North & Schoonmaker, of Rondout, began the filling of the barge F. H. Close with ice, this morning. The ice is cut in Mayhem's Pond, South-Gilboa. Ten cars, loaded, with the frozen blocks, arrived here last night. The ice is 12 inches in thickness.

CHARGES AGAINST AN UNDERTAKER.

Tried and Acquitted—Then Arrested Again—Another Trial on Thursday.

John J. Murphy, a Rondout undertaker, was arraigned before Justice McKenzie, in Port-Ewen, to-day, charged with violating the act of the Board of Supervisors in regard to burial permits. He was tried, found not guilty and discharged.

He was re-arrested on a complaint for violating the laws of the Board of Health of the town of Esopus.

The case will be tried by jury before Justice McKenzie on Thursday afternoon.

The complaint was made by Supervisor Benton, of Esopus.

It is claimed that Murphy buried a child in that town without a permit.

ABOUT HORSES AND THEIR OWNERS.

A Word or Two About "Close Clipping"—The "Fastest Walking Nag."

Lewis Hook, of Ellenville, claims to have the fastest walking horse in the counties of Ulster, Orange or Sullivan.

An attempt is being made among horsemen to raise $3,000 for a monument to mark the grave of Rysdyk's Hambletonian, at Chester, Orange County.

How strange that the man who thinks to improve on nature by clipping his horse in winter, never practices his theory by wearing a linen duster in place of an overcoat.—*Exchange.*

ANOTHER OF DEMPSEY'S FISH STORIES.

In Some Respects It Seems to be the Tallest He Has Yet Related.

William Dempsey, of Rondout, who is looked upon by his friends as an encyclopaedia of strange piscatorial events, related the following this afternoon: "Four shad hat had basked in the shade of orange trees that line the St. John's River, Florida, and had scented fragrant magnolia blossoms as they fell into the limpid stream, made a mistake of several weeks as to the time of year. They wagged with their tails a farewell to the tail-end of the Sunny South, set their fins in motion and soon were in the Gulf Stream on their way north. On Friday a lone fisherman at Sandy Hook cast his net into the sea and caught the four shad that had enjoyed such a pleasant swim in the warm Gulf stream. The fish were shipped to Rondout, and yesterday they were eaten and pronounced par excellence. The shads' backs were broader than the shad usually caught in the Hudson River, and the fact that they were taken off Sandy Hook at this season of the year is an odd occurrence, and shows how foolish the fish were to leave Florida before other Northern boarders there began to leave for home. In my opinion some fish are as dumb as some men I know."

The Influence of a Bad Example.

A Kingston woman, speaking of the injury done by injudicious out-of-door relief by Alms Commissioners, relates the following: "There was a hard-working woman with a large family in Kingston. She supported them by washing. She appeared contented with her lot. One day she learned that a family near her, the members of which were not industrious, were receiving support from the Alms Commissioners. She began to complain of her lot, and said: 'If that family is helped when they won't work I certainly ought to be helped when I am trying so hard to get along.' The more she thought about it the more discontented she became. Finally she went to the Alms Commissioners, asked for help, and has been regularly aided ever since."

In Justice's Court.

A civil suit entitled Cornelius Davis vs. Matthew Lasher and Abram Lasher, was tried in Justice DuBois' Court, Rondout, this afternoon. Davis claimed $35 from the Lashers for use of harness, wagon, hay, etc. Before the summons was served on the defendants the Lashers took out a summons in Kingston to serve on Davis for the recovery of $96, which they claimed Davis owed them for board. Before it was served the summons expired, and before it could be renewed Davis served a summons on the Lashers to appear in Court in Rondout.

PILOTS MAKE MERRY HERE.

THEY INSTALL NEW OFFICERS AND ENJOY A BANQUET.

Good Cheer and Reminiscences—Remarks Made for the Good of the Order—The Objective Points of the Watermen—Some History.

And kept the noiseless tenor of their way.—*Horace.*

The members of Harbor No. 3, American Brotherhood of Pilots, of Rondout, had a profitable and a merry time last night. About 50 of these men, whose line of duty often compels them to pierce the gloom of the darkest night and face wind and storm, gathered in their rooms in Odd Fellows' Hall, on The Strand, and witnessed the installation of the following officers, who were recently elected for the ensuing year:

THE OFFICERS INSTALLED.

George B. Gage	Captain
Julius Hyde	First Pilot
A. O. Parsells	Second Pilot
William S. VanKeuren	Purser
Alfred Davis	Purser's Clerk
William B. Barnett	Captain's Clerk
Gustavus Hammond	Chaplain
Jacob M. Eider, John Woodruff	Starboard Quartermasters.
John Hamilton, Joseph Rightmeyer	Port Quartermasters.
George E. DuBois	Forward Deck Watchman
Chester Wells	Saloon Watchman

SNUG QUARTERS IN THE MANSION HOUSE.

Disappointment was expressed at the absence of Frank Risendorf, Grand Captain of all the Harbors, who was scheduled to install the new officers. Julius Hyde installed the Captain, who in turn installed the other officers. After the exercises at the hall were concluded the pilots found snug quarters in the Mansion House, where they partook of a banquet. Among the visitors present were:

SOME OF THE PILOTS PRESENT.

Pilots John Anthony, Harbor No. 1, New-York, propeller S. L. Crosby; W. C. Shultis, Harbor No. 1, steamboat Oswego; Alonzo Barber, Harbor No. 7, Albany, propeller George H. Sharpe; J. B. Brannigan, Harbor No. 12, West Shore ferry-boat Oswego; Martin Cramer, Harbor No. 12, propeller Clara; W. M. Sloan, Harbor No. 12, Superintendent West Shore Stores.

THE "GOOD OF THE ORDER."

The best of cheer prevailed in the banquet hall. The coast was clear, and nothing occurred to obstruct the Pilots' passage of pleasure. John E. Lasher, the proprietor of the hotel, was assiduous in his attentions to the watermen. A more solid-looking body of men would be hard to find. Many steamboat reminiscences were related. Remarks pertaining to the good of the order were made by W. M. Sloan, Jacob DuBois, J. B. Brannigan, W. C. Shultis and T. Donovan. Mr. Sloan said that he had visited nearly all the Harbors in the order, but none had impressed him more favorably than the Rondout Harbor. He alluded to the organization's healthy and rapid growth, and said that it was sailing along in the right channel for future prosperity.

AMERICAN BROTHERHOOD OF PILOTS.

The order of American Brotherhood of Pilots was organized about three years ago. There are now 12 Harbors. No. 1 is in New-York. Rondout Harbor, No. 3, was organized on June 4, 1887. It started off with 24 members. It now numbers 65. The order is a secret, social and benevolent one. One of its staunch principles is "Mutual protection to its members and protection to life and property." Since the inception of the order much good has been done by its members, who are striving to make the American Brotherhood of Pilots one of the foremost benevolent organizations in this country.

THE STORY OF A KINGSTON FELINE.

It Contains Nothing Extraordinary, Yet It Reads Well and is True.

Christopher Snyder, of Kingston, is the owner of a cat that is 19 years old. Though deaf and somewhat inactive, puss is in good health. It lives mostly on milk. Mr. Snyder tells a number of anecdotes about the intelligence of this cat. He was the owner of a little "yaller" dog. The dog and cat became great friends. When an enemy of the cat came in the yard the dog would fly at it and drive it away. During the battle the cat would walk gravely in the rear of the dog, as though urging it on. After the enemy had been vanquished, the cat and dog would touch noses, and then trot back to the house, side by side. The cat had the mischievous habit of killing chickens at one time. A little bantam hen was the mother of a brood of chickens. The cat would stealthily watch the chickens and when Mr. Snyder was not about, pounce on one and kill it. One day when the cat was lying in wait near the coop, Mrs. Snyder raised the coop and let out the bantam. The little hen mother had been watching the cat through the bars of the coop for several days unable to protect its young, and the moment it was free it sprang at the cat with great fury. The charge was so sudden that puss was entirely taken by surprise, and after a slight defense turned and ignominiously fled. The bantam pursued the cat for some distance. Ever after when a chicken came near, the cat would look at it as much as to say: "You can't play that game twice," and walk out of the way.

Rheumatism

According to recent investigations is caused by excess of the lactic acid in the blood. This acid attacks the fibrous tissues, particularly in the joints, and causes the local manifestations of the disease, pains and aches in the back and shoulders, and in the joints at the knees, ankles, hips and wrists. Thousands of people have found in Hood's Sarsaparilla a positive and permanent cure for rheumatism. This medicine, by its purifying and vitalizing action, neutralizes the acidity of the blood and also builds up and strengthens the whole body.

Hood's Sarsaparilla

"I was laid up for six months with rheumatism and used many kinds of medicines without good result till one of my neighbors told me to take Hood's Sarsaparilla. When I had used half a bottle I felt better and after taking two bottles I think I was entirely cured, as I have not had an attack of rheumatism since." EUGENE H. DIXON, Rossville, Staten Island, N. Y.

Cures Rheumatism

"I had attacks of rheumatism which increased in severity. I took three bottles of Hood's Sarsaparilla and I am pleased to say the rheumatic pains ceased, my appetite and digestion became better and my general health greatly improved. I am firmly convinced that Hood's Sarsaparilla cured me, as I have felt no recurrence of this blood disease." WM. SCOON, Geneva, N. Y.

HON. J. P. BASS,

now President Eastern Maine State Fair Association, ex-Mayor, of Bangor, business man and capitalist, is one of the best known men in Maine. He had, not one ago, a severe attack of dyspepsia, which took him from all business, placing him under treatment. He went South and West in search of health, but failed to find it. Could eat no solid food, and became reduced in flesh from 160 to 118 pounds. Spent thousands of dollars, still no relief. At this time met Dr. Brown, who had just returned from Europe. The latter undertook a cure.

He expanded and strengthened the walls of the stomach of the patient, cleansed them of foreign accumulations; reduced that "growing sensation;" revived the liver and kidneys, exciting them to a healthy action, and toned up the blood until Mr. Bass began to regain former good health. Under this treatment he became entirely well, and that year, in connection with Hon. G. B. Loring and other officials of the New England Fair Association, managed their great fair. Mr. Bass says Dr. Brown used nothing in his case but

NOTES ON NEWS OF THE DAY.

THE Senate has amended the Legislative appropriation bill to give the President's Private Secretary $5,000 instead of $3,500 a year. Col. Halford will be the first beneficiary of this "raise."

THE winter carnival at Montreal began yesterday. Enough ice had been found to build the palace, and the tobogganers rode over natural snow. About 500 persons from New York are among the visitors.

THE West Virginia Legislature again failed to elect a Senator yesterday. Goff and Kenna received 39 votes each, and 5 other votes were cast. The canvass and declaration of the gubernatorial vote is at present the leading subject of interest.

MR. CLEVELAND takes the place of ex-Attorney General MacVeagh in the big New York law firm, instead of becoming associated with him. He will attend courts and do the general work of a practicing attorney. He has a genius for hard work. It is understood that he will reside in Brooklyn.

THE German minister at Washington has received a communication from Bismarck proposing the resumption at Berlin of the consultations which took place in Washington in 1887 between representatives of Germany, Great Britain and the United States on the subject of Samoa. News also comes from Berlin that the German consul is to be recalled for exceeding his instructions. The war is almost over.

THE Cramps, the firm of ship-builders which Secretary Whitney preferred to the Roaches, inform the government that if it is not satisfied with the dynamite cruiser Vesuvius, they know another government which is willing to take it off their hands at a larger price. They are now engaged in building a dynamite gunboat for Italy. This is the Democratic way of keeping faith with our government and holding its secret plans sacred.

FOUR Democrats from Georgia and Tennessee arrived at Indianapolis last night for the purpose of visiting Gen. Harrison to-day. Their mission is to secure offices for themselves and several Democratic friends. This is more manly than Mr. Cleveland's plan of nominating Democrats for terms of four and five years in the last month of his term. Just at present, however, the question of appointing Southern Democrats to office is not interesting Gen. Harrison. The question, "Who killed Clayton?" has precedence.

GEN. HARRISON is reported as declaring that the Secretary of the Treasury must come from the West, even though Senator Allison declines, as he is believed to have done. Public opinion is still centering upon John C. New, who has been both First Assistant Secretary of the Treasury and Treasurer of the United States. He is also one of Gen. Harrison's closest and most trusted friends. But it is well understood that he does not wish the position. The name of ex-Secretary Windom has also been taken up by the gossippers. He was associated with Mr. Blaine in Garfield's Cabinet.

THERE are Democrats in Congress who advise the Arkansas Breckinridge to decline to accept his certificate to the next Congress and demand a re-election. The gentleman has promised, it is said, to think the matter over. If it can be arranged to have the election take place before the 4th of March he will perhaps consent. If it is delayed till after that date, there is serious danger that the Republican voters will be protected in their rights. For Gen. Harrison has said—referring to the election crimes in Arkansas, "this thing must be stopped." And he will be in position to stop it four weeks from to-day.

THE new territory of Oklahoma, the bill for creating which has just passed the House includes about 23,000,000 acres or 36,000 square miles of Indian territory and the strip lying between Kansas and the Texas Panhandle known as "No Man's Land." This is a little more than half of the entire territory as given on the maps, the area of which is 68,000 square miles. A state about the size of Kentucky will in a few years be founded on this territory. The bill is not likely to pass the Senate during the present session, as it will have to be amended in several important particulars, for which there is not time. But settlers are crowding into the territory, and there is great need of a system of government.

THE civil service rules applied to the railway mail service are of recent date. There was no need of these rules, it appears, when the present administration came in, for the service was in such an excellent state of efficiency that no removals were made until about six months ago. Mr. Cleveland is now paying off his political debts by removing efficient Republicans and filling their places with Democratic heelers, and the change of rules is intended to fasten these men upon the public for at least a year. The new rules, however, can be changed, especially the one that forbids reinstatement within a year after removal. The efforts of Mr. Cleveland to put General Harrison's administration in charge of the Democratic party will compel the clearing away of all obstacles to genuine civil service reform by the summary process known as a "clean sweep."

WARNER MILLER points out a very objectionable feature of the Excise Commission's bill. It protects all who are at present engaged in the liquor trade by providing that there shall be no reduction of the present number of saloons, but that no new licenses shall be granted till the saloons are reduced in number till there is only one for each 500 inhabitants. This shuts off all new competition. But there could be no reduction of the number of saloons in New York city till the population had increased to four or five millions. The bill also provides that no license shall be granted for the sale of liquors within 200 feet of any church, school house, academy, college, reformatory or cemetery, but good care is taken not to interfere with existing licenses. This would give the dealers an absolute monopoly of the situation. Provision is also made for the removal of a saloon from one part of the city to another without vitiating the license, and for the sale or transfer of a license to another dealer upon payment of a fee of $5. The whole bill is carefully drawn in the interest of liquor trade.

IN THE ASSEMBLY AND SENATE.

Only Five New Bills in the Lower House—A Scene in the Senate.

By Telegraph to The Freeman

ALBANY, Feb. 5.—In the Assembly to-day only five bills were introduced. This morning Cotrell introduced a bill providing for the establishment of dairy schools. It authorizes the State Dairy Commissioners to establish one and not more than four dairy schools, for the purpose of giving free instruction to young men and women in the management of the dairy, and the production of milk, and the science and art of butter and cheese making. Such schools are to be located in such places as may be deemed best suited and most convenient.

THE DAIRY COMMISSIONER.

The Dairy Commissioner is also authorized to hire a suitable farm or farms, and to hire or purchase dairy cows and suitable implements and apparatus. The products shall be sold and the proceeds paid into the State Treasury. The Dairy Commissioner is authorized to appoint an Assistant Dairy Commissioner who shall be qualified in the science of chemistry as applied to dairy agriculture and competent to instruct in practical butter and cheese making and who shall manage the business of such farms. He shall also appoint such superintendents and teachers as may be necessary and fix their compensation. The bill appropriates $30,000.

CONELLY'S ASSESSORS' BILL.

In Committee the House considered Conelly's bill providing for two additional State Assessors, one of whom shall come from New-York City. Conelly advocated the bill, stating that it was favored by all the tax-payers and trade organizations in the City of New-York which pays 47½ per cent. of all the taxes paid in the State and is entitled to a representative on this Board.

IN THE SENATE.

By Telegraph to The Freeman.

ALBANY, Feb. 5.—In the Senate, to-day, the Rev. S. V. Leech, of Albany, opened the session with prayer. He referred to the corruption which so greatly influenced elections in the great cities, and prayed for deliverance from "the political gamblers, who buy up the votes of ignorant immigrants, who comprise such a large portion of the population of cities." Immediately after the word "Amen" Grady arose. "I move," he said, "that the officer having charge of the selection of a clergyman to offer the opening prayers in this body be instructed to hereafter give no invitation to do so to the person who just assailed the throne of mercy with a very peculiar petition. It is an outrage that a prayer should be made a cover for assailing the political majorities of our cities as ignorant immigrants steeped in superstition.

SOME REMARKS.

"Perhaps the prayer was meant for the Senator from the Sixth" [Grady]' interrupted Erwin.

"No it was not'" answered Grady.

"But I think it was," replied Erwin.

"The insult is worse," said Murphy, "because it comes from a clap-trap politician who has been a perennial candidate for Chaplain of the Senate."

"But what is the matter with the prayer?" persisted Erwin. "I think we should pray continually to be delivered from fraud and corruption."

The Lieutenant-Governor, at this point, ruled that the entire matter was out of order.

BILLS INTRODUCED.

Bills introduced: Coggeshall, enabling dyers, laundrymen, etc., to collect unpaid charges on goods left with them by selling the goods at public auction six months after the charges are due. Fassett, to promote the care and curative treatment of the pauper and indigent insane of the State, outside of New-York, Kings and Monroe counties. Sweet, appropriating $6,000 for repairing the second level and State ditch of the Cayuga and Seneca Canal, at Seneca Falls. Fassett, giving natural gas companies right of eminent domain. Foley, appropriating $12,000 for completing the Saratoga Armory.

AN ACCIDENT ON LOWELL RAILROAD.

One Man Killed and Several Others Said to be Fatally Injured.

By Telegraph to The Freeman.

BOSTON, Feb. 5.—An accident occurred shortly after midnight on the Lowell Railroad near the Prospect-street station in Somerville whereby an engineer lost his life and a fireman, a brakeman and a conductor were severely if not fatally injured. An eye witness says about 12:30 o'clock a locomotive and tender passed up the track toward the Arlington branch on the way to Somerville. The engine, as it passed the bridge and neared the Winter Hill station, swayed back and forth and then left the irons and toppled over on its side. It was found that the engine had fallen across the inward track and a man was pinned beneath the cab. One of the injured men had taken the precaution to light a lantern and set it upon the track, but a train came down and before it could slow up collided with the locomotive and drove it ahead toward the Cross-street bridge, carrying the injured man beneath it. When taken out he was horribly mangled and dead. He proved to be the engineer, W. Tankell, aged 35, of Montpelier, Vt. On the locomotive were the fireman, Frederick Trenham, a brakeman named Zers, and Charles Cushing, a freight conductor. The fireman and brakeman were both seriously injured and were removed to the hospital in Somerville. The Conductor was badly scalded.

THE STRIKE IN NEW-YORK CITY.

One Man Shot Dead—Strikers Who Defy the Law—The Situation.

By Telegraph to The Freeman.

NEW-YORK, Feb. 5.—There is very little to be said about the street car tie-up, to-day, beyond the fact that all the roads that ran cars yesterday are running again to-day, most of them on schedule time, and all of them meeting the demands of traffic. Even the Belt line started out boldly, this morning. At 9 o'clock this line had 15 cars running, and there had been no disturbances. Very many of the strikers are applying for re-engagement, but some of the roads, notably the Fourth Avenue, will have nothing to do with them. The Seventh and Ninth-Avenue lines expected to start their cars this afternoon. This will leave only one or two small cross-town lines not in operation. Cars were started this morning on the Seventh-Avenue line in Brooklyn, making three out of eight lines now in operation. All of the cars are under police protection. It is said many of the old hands are applying for work.

ONE MAN SHOT DEAD.

This afternoon a party of men, presumably strikers, attacked a car at Sixty-fifth-street and the Boulevard and began pelting it with stones. The passengers left the car and the officer in charge of it, Thomas K. Snyder, having been hit in the face by one of the stones fired into the crowd. The bullet went whizzing through the brain of one of the men. He died while being removed to the hospital. His name has not yet been ascertained. The officer who did the shooting was placed under arrest.

Trouble was reported this afternoon between the strikers and the men employed on the Avenue C Line at Fourteenth-street and Avenue C. A patrol wagon filled with police was sent to the scene.

A RACE WAR IN ILLINOIS.

THE C. S. PARNELL COMMISSION.

The Irish Portion of the Case Finished; the American Part to Come Next.

By Cable to The Freeman.

LONDON, Feb. 5.—At the opening of to-day's session of the Parnell Commission Attorney General Webster said he had finished with the Irish portion of the *Times* case and would now take up the American part. A witness named Beach testified that he joined the Fenians in 1865 and was appointed Military Organizer. After the failure of the invasion of Canada by the Fenians he joined a society known as the "B C," the object of which was to provide money to carry on the Irish agitation and ship arms to Ireland. Witness said he remembered the visit of Messrs. Dillon and Parnell to America in 1880. The meetings held during their stay in the United States were organized exclusively by the United Brotherhood or Clan Na Gael. Witness attended several meetings, at which Dillon and Parnell were present. Parnell attended the demonstration in Chicago, at which bodies of the Clan Na Gael and the Hibernian Rifle Guards were under arms.

PARNELL'S ACTION FOR LIBEL.

By Cable to The Freeman.

LONDON, Feb. 5.—The action brought by Mr. Parnell against John Walter, registered proprietor of the *Times*, for libel, came up before the Court at Edinburgh, to-day, and the case was dismissed, the costs being taxed against the plaintiff. The judgment was on the ground that Walter, being one of the copartnership owning the *Times*, arrestments against him as an individual would be invalid. Parnell will appeal.

THE "CLAN NA GAEL."

Beach produced a copy of the Constitution of the "B. C.," or "Clan Na Gael." It provided for concerted action with the Irish Brotherhood and kindred societies to bring about a combination of the Irish revolutionary movements in all parts of the world to act decisively against England. Witness said that in 1878 Devoy and Millen were sent as delegates to Ireland, receiving $10,000 from the skirmishing fund and a further sum which does not appear in the official list. Attorney General Webster read Devoy's official report, in which he urged that before any large quantity of arms was sent to Ireland three delegates should be sent to prepare Irishmen to use them. Beach further testified that Eagan told him Parnell desired to join the Brotherhood but it was thought his connection with the organization would destroy his usefulness and he was not allowed to join.

RACE WAR IN THE STATE OF ILLINOIS.

Factory Operatives Incensed Over the Employment of Colored Men.

By Telegraph to The Freeman.

MARION, Ills., Feb. 5.—What threatens to prove a serious race war has broken out here. A few weeks ago F. M. Westbrook & Sons, tobacco packers, imported a number of colored men to work in their factory, claiming that there were no white men here capable of performing the work of stemming and stripping. The action of the Company greatly enraged a number of white workmen, and they warned the colored men to leave town within 10 days or receive summary punishment. Threats were also made to burn the factory and the homes of the imported laborers. Little attention was paid to the threats. Saturday night a lot of men went to the home of Logan Collins, a colored boss, and fired five shots into the house. Collins procured a revolver and returned the fire, but no one was hurt. The factory owners say they will not discharge the new men.

THE CLAYTON ASSASSINATION.

Powell Clayton and W. H. H. Clayton, brothers of the Republican Congressman-elect of the Second Arkansas district who was murdered at Plummerville one week ago to-night while preparing the evidence on which to prove his rights as a member of the next House, have prepared a statement of the facts preceding and leading up to the murder which go show that it was for no other purpose than to prevent Clifton R. Breckenridge from being unseated, and that it was countenanced if not actually abetted by the highest Democratic authorities in the state.

The beginning of the story antedates the September election, when state officers were chosen. To prepare for that election a Democratic club was organized at Morrilton, the county seat of Conway county, with one Sowers, fresh from Mississippi, at its head. This club resolved itself into a militia company about two weeks before the election, and Gov. Hughes furnished it with state arms and a full supply of ammunition. The company paraded the streets of Morrillton, fully armed, every day. On the day of election they brought their guns, heavily loaded, and deposited them in a convenient place in the building where the election was held. In the morning the Republican Judge of Election was arrested on a false pretext, whereupon Sowers marched with his company to the polls and elected a Democrat to fill the vacancy. This made the board solidly Democratic. By a similar proceeding the places of the two Republican Judges at Plummerville were usurped, the result of which was the election of a full set of Democratic officials in Conway county, though the people are Republican by a large majority.

The Congressional election occurred two months later, John M. Clayton being the Republican and Clifton R. Breckinridge the Democratic candidate. The day before this election M. W. Benjamin, a prominent Republican lawyer of Little Rock, was sent to Conway county by the Republican State Committee to use his best efforts to secure a fair vote. On arriving at the depot at Morrilton he was set upon by a mob of several hundred citizens, who threw him from the car, assaulted and beat him, pulled handfuls of beard from his face, and finally shot him in the forehead, the bullet being flattened on his skull. Benjamin died soon afterwards, leaving his dying testimony with his wife that his death was due to the injuries inflicted by the Morrilton mob. On the day of the election the two Republican Judges were on hand at the Plummerville poll, but they were ignored by the Democratic Judge, who put in nomination two members of his own party, and upon a mere affirmative vote declared them elected without putting the negative. The Republican Judges, accompanied by the Republican Supervisor, undertook to open polls elsewhere, but were notified by five Democratic Deputy Sheriffs that they would not be permitted to do so. The Supervisor, whose name is Charles Wahl, thereupon returned to the place where the Democratic Judges were holding the election. When the polls closed the original Democratic Judge took the ballot-box and carried it from place to place through the town, Wahl persistently following. Becoming tired, the Judge finally returned to the polling place, which was soon afterwards invaded by four armed and masked men, who, having awed the Judges by presenting their pistols, seized the ballot-box and poll books and carried them away. This box contained 697 ballots, of which 572 were cast for John M. Clayton.

It was upon learning these unlawful acts that Mr. Clayton resolved to make a contest for his seat, and he employed a responsible citizen of Plummerville named Alexander to ascertain the actual number of votes cast for him in the precinct. Up to the 17th of December Alexander had obtained the names of 45 citizens who had voted for Clayton. Buton that night Supervisor Wahl was inveigled into a game of cards in a room that contained a glass door, and was shot in the neck and dangerously wounded by some one on the outside. This so frigh'ened Alexander that he gave up the search and left the state. Wahl fled to Little Rock, where he now remains for safety For none of these crimes—the murder of Benjamin, the wounding of Wahl, and the stealing of the ballot boxes—has any person been arrested or any official reward offered. Hence they stand approved by Democratic authority.

Clayton went to Plummerville unarmed and unescorted, trusting to his opponent and neighbor, Mr. Breckinridge, to restrain his partisans. As he passed through Little Rock he said to a friend there that he did not believe he would be harmed. On the evening of January 29th, after several days spent in taking testimony, he was shot dead while in the act of sitting down to a desk to write a letter to his motherless children at Pine Bluff.

The brothers write: "We were unable to remove his body until 3:30 P. M. the next day, up to which time the Sheriff of the county had not appeared, being, in the language of the deputy, engaged in the more important business of collecting taxes. Nor had any citizen of the town made the slightest effort to trace or apprehend the murderer."

This murder, it should be stated, elects Clifton R. Breckenridge to Congress. He has not offered a dollar of reward to help along the pursit of the murderers, has not spoken a word in condemnation of act, or shown a single sign of unwillingness to take the seat that is the price of the blood of a worthy neighbor and fellow citizen. He has had too long and thorough training in the school of politics that relies upon murder as the final appeal, to be shocked at the thought that he is to be the beneficiary of such an act. This man is coming to Washington again to make laws for the North and for the nation. Does our civilization require such representatives? Can it afford to employ them?

HOW THE CROWN PRINCE DIED.

A succession of contradictory reports has been published concerning the mysterious death of Rudolph, the Crown Prince of Austria. When the first announcement was made, it was that he had died of sudden paralysis of the heart, brought on by attacks of rheumatism. This was a court falsehood, given out to cover the real cause of death. Then came the admission of suicide, which is probably the truth. But this was followed by the *World's* remarkable dispatch, asserting that he had been murdered by one of the highest noblemen in the Empire, because of improper attentions to his slayer's wife. There would be nothing incredible in this except for the fact that the circumstances disprove it, for the Hapsburgs are known to be and to have been always a "bad lot."

And now comes the most sensational statement of all. It is that the Prince was the victim of a duel on what is called "the American plan" in the East. He had become involved in an "affair of honor" with a high Austrian family, and a son of this family agreed to throw dice with him, the loser to die by his own hand within three months. The dice were thrown and the Prince lost. He waited till the three months were up, and then put a bullet through his brain. It is further reported that when the Prince's room was broken open the dead body of a beautiful young lady, the daughter of a wealthy Bohemian family, was also found. The Prince had killed her with a revolver before taking his own life. An attempt was made to keep this part of the tragedy secret, and the remains of the victim were privately conveyed to the home of her parents. This story is said to be generally credited in Vienna.

Fortunately, the imperial family of Austria is not lacking in "scions," and there is little danger that the throne will become vacant in consequence of Rudolph's death. The succession will now devolve upon the Archduke Charles Louis, in the event of Francis Joseph's death.

The conception that dueling with dice is the "American plan" is a misapprehension, and does the practitioners of the code injustice. The American plan is for the combatants to go bravely upon the field, face each other and fire—after the bullets have been carefully drawn by their seconds. In this way honor is vindicated, and both live to tell the tale of their heroic deed. Rudolph's act was only the American plan of suicide, which is to kill the woman in the case first.

GOOD APPLES.

The apple crop of 1888 was so large that thousands of barrels in Western New York are rotting in the hands of farmers and merchants because there is no market for them. While there is this abundance, it is a notable fact that there is a great deal of wormy and defective fruit, which decays quickly. This is attributed by *Vick's Magazine*, a valuable authority on horticulture, to the codlin moth, the habits of which Mr. Vick has carefully investigated. This moth, he insists, makes all the wormy apples. It is found that the practice of spraying the trees with water and paris green or london purple at the time the blossoms are falling, and repeating the operation about two weeks later, "has the effect to so great an extent to prevent the deposit of the insect's eggs and to destroy the larva already hatched, that the crop is almost wholly saved from injury." Partial failures have only followed the falling of heavy rains immediately after the work has been done, if done thoroughly. The moths have become so numerous that it is impossible to raise a crop of sound fruit without spraying.

This is a cheap and simple remedy, and well worth trying by the fruit-growers of Ulster county. The fruit of the Hudson valley is found superior in size, flavor, tenderness and smoothness to that of the western part of the state, though the latter is pronounced more hardy. Our fruit-growers have the advantage over those farther west in distance and time from New York, and we hear no complaints of unmarketable stocks in this section. Their superior opportunities should stimulate them to make their fruit perfect.

PUBLIC OPINION.

It is much to be regretted that Senator Allison has seen fit to decline the position of Secretary of the Treasury tendered to him by the President-elect. We have stated the reasons why we considered the selection of Mr. Allison for this place a very judicious one on Mr. Harrison's part. We do not see where his equal is to be found, or one approaching him in qualifications for the office, always supposing that Senator Sherman is out of the list. We trust that Gen. Harrison will, as regards this office at least, look upon all claimants as *prima facie* disqualified. Here is one office which should seek the man, not the man the office.—*New York Evening Post.*

A straw which shows how the wind is blowing in politics across the border is the election of C. W. Colter in Haldimand county, Ontario, to fill a vacant seat in the Dominion House of Commons, on a platform of "unrestricted reciprocity" in trade with the United States. The election of one man on this issue is a small matter; the significant fact is that relations with the United States are coming to be the dominant question in Canadian politics.—*Buffalo Commercial Advertiser.*

Governor Hill tells our Albany correspondent that in writing a message "the chief difficulty is not what to say, but what not to say." Unconsciously, of course, but how admirably in that remark Governor Hill illustrated himself! He is just the sort of person who says not what he believes, nor what he considers best for the public, but what he thinks is politic and safe. He measures his words by the yardstick of the time-server and the vote-getter, and with him "what not to say" is decided by his notion of what it will cost at the polls.—*New York Tribune.*

The selection of Wanamaker supplies an interesting contrast with that of Blaine, inasmuch as there is not a trace of Republican opposition to him. That he will take the portfolio of Postmaster General is as certain as any political future event can be. Few will dispute that he is fitted for the place by splendid business training and by habits of unceasing industry, or that the public in general has confidence in his ability to keep the Department up to its present high standard. —*Utica Observer, Dem.*

"One Ash" is the name of John Bright's Rochdale country seat. It was so styled because of an ash tree which is a great favorite. There is many a home in Troy, which, considering the view from its front windows toward the close of the week, might also get the name "One Ash"—only it would be necessary to add "barrel" to make the title fully indicative of the prospect.—*Troy Standard.*

The New York *Tribune* notes that Massachusetts, from whom New York borrowed her system of managing prison labor, spent $303,000 net on her prisoners, above their earnings, while Ohio got an actual net profit of $15,183 from her prisons. New York is worse off than even Massachusetts. There has been a heap of costly false sentiment in prison management.—*Lowell Courier.*

The number of nominations sent by President Cleveland to the Senate for confirmation since the election, and most of them within a month, is stated at 400. These represent 400 election debts that Cleveland proposes to settle at public expense with the consent of the incoming Administration. No wonder the Senate has made up its mind to confirm none. —*Brooklyn Standard-Union.*

THE LIFE CURRENT.

Deprive the vegetable world of moisture and it pales, withers and dies; the whole earth becomes parched, and desolation pervades the landscape. Deprive the human system of pure blood and health is impossible, disease is inevitable. The skin becomes charged with repulsive humors, the lungs loaded with foreign secretions, fevers ensue, and, unless speedily arrested, death follows. Renew to healthy action the liver, the great blood-purifying gland, with Dr. Pierce's Golden Medical Discovery, and health flows through every avenue, restoring every organ to vigor. All druggists.

The blood is the source of health. Keep it pure by taking Hood's Sarsaparilla, which is peculiar in its curative power.

CARD OF THANKS.

If the proprietor of Kemp's Balsam should publish a card of thanks, containing expressions of gratitude which come to him daily, from those who have been cured of severe throat and lung troubles by the use of Kemp's Balsam, it would fill a fair-sized book. How much better to invite all to call on any druggist and get a free sample bottle that you may test for yourself its power. Large bottles 50c and $1.00.

So simple yet powerful when applied to pains and weaknesses—Hop Plasters. Don't neglect yourself.

FOR DYSPEPSIA and Liver Complaint, you have a printed guarantee on every bottle of Shiloh's Vitalizer. It never fails to cure. Sold by Frederick J. R. Clark.

MERIT WINS.

We desire so say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. VanDeusen Bros., Rondout, and F. J. R. Clarke, Kingston, druggists.

COMMON AIR.

The breath of life is conveyed to every part of the human lungs by means of a system of fine vessels called the bronchial tubes. When these are clogged up by an accumulation of mucous, so that breathing is very difficult, especially after any exertion, a person has the leading symptoms of Asthma or Phthisic. Besides this the tubes are often reduced to much less than their natural diameter by spasmodic contraction; often nearly suffocating the sufferer. Whether the case is of long standing or not. Dr. David Kennedy's Cherry Balsam is the most efficacious known remedy. It at once loosens the mucous matter, and causes it to be ejected by a free and easy expectoration. The Balsam in such cases should be taken in larger doses than for a common Cough, and no harm is done if some vomiting results. Take particular notice that if the disease is complicated with a dyspeptic state of the stomach Kennedy's Favorite Remedy must be used to correct the digestion. The case must be very severe that will not rapidly improve under this treatment.

I have been a sufferer from catarrh for the past eight years. Have tried a number of remedies advertised as "sure cures" without obtaining any relief. I had resolved never to take any other patent medicines, when a friend advised me to try Ely's Cream Balm. I did so with great reluctance, but can now testify with pleasure that after using it for six weeks I believe myself cured. It is a most agreeable remedy—an invaluable Balm.—Joseph Stewart, 624 Grand-avenue, Brooklyn.

DO NOT THINK FOR A MOMENT

that catarrh will in time wear out. The theory is false. Men try to believe it because it would be pleasant if true, but it is not, as all know. Do not let an acute attack of cold in the head remain unsubdued. It is liable to develop into catarrh. You can rid yourself of the cold and avoid all chance of catarrh by using Dr. Sage's Catarrh Remedy. If already afflicted rid yourself of this troublesome disease speedily by the same means. The Old Doctors

Drew blood, modern doctors cleanse it, hence the increased demand for Alteratives. It is now well known that most diseases are due not to over-abundance, but impurity of the blood, and it is equally well attested that no blood medicine is so efficacious as Ayer's Sarsaparilla.

"One of my children had a large sore break out on the leg. We applied simple remedies, for a while, thinking the sore would shortly heal. But it grew worse. We sought medical advice, and were told that an alterative medicine was necessary. Ayer's Sarsaparilla being

Recommended

above all others, we used it with marvelous results. The sore healed and health and strength rapidly returned."—J. J. Armstrong, Weimar, Texas.

"I find Ayer's Sarsaparilla to be an admirable remedy for the cure of blood diseases. I prescribe it, and it does the work every time."—E. L. Pater, M. D., Manhattan, Kansas.

"We have sold Ayer's Sarsaparilla here for over thirty years and always recommended it when asked to name the best blood-purifier."—W. T. McLean, Druggist, Augusta, Ohio.

"Ayer's medicines continue to be the standard remedies in spite of all competition."—T. W. Richmond, Bear Lake, Mich.

RIKER'S EXPECTORANT

Acknowledged by all who have used it to be the most wonderful cure in the world for Coughs and Colds.

Is warranted to cure any ordinary cough or cold or your money is returned. A pleasant, swift and sure cure for Coughs and Colds.

If taken as soon as you feel that irritation or dryness of the throat, occasioned by a cold, four to six doses will cure.

It won't cure a horrible sore throat in one night, nor in fact will it cure anything in that space of time. It takes at least a day or so to cure a cold, but

IT GETS THERE ALL THE SAME.

It stops your cough almost at once, but should you stop taking it after two or three doses probably your cough would return. One thing you can always be sure of: Long before you have emptied the bottle you will be "all O. K."

As a trial of this truly wonderful medicine costs nothing, and as 95 cases out of every 100 will be cured it is well worth your while to at least make the trial.

Price per bottle containing half a pint (enough to cure eight people if taken in time),

★ BRIGHT'S DISEASE. ★

A Ten-Year-Old Child Saved After the Failure of Four Physicians.

My little girl, ten years of age, was taken sick in March, 1888, with scarlet fever. When recovering she took a severe cold, which developed Bright's Disease of the Kidneys. Her ankles, feet and eyes were terribly swollen, she had a burning fever, and all the symptoms of an aggravated case of Bright's Disease. Four of our best physicians attended her, but without success, and

Her Life was Despaired of.

But a mother's love and prayers surmount all difficulties, and I determined to try Dr. David Kennedy's Favorite Remedy, made at Rondout, N. Y. This was a last resort, and I hoped, although my little daughter's case was a very severe one, that the Favorite Remedy would do for her what it had done for others whose condition had not been, seemingly, as hopeless. How happy I am that I determined upon this course—for an improvement was at once perceptible. The fever left her—her appetite improved—she gained six pounds in a short time, and one by one the well known and dreaded symptoms of the disease left her. Words fail to express my gratitude and I cannot too earnestly recommend the Favorite Remedy. It was

A MARVELOUS RECOVERY

and is due entirely to the Favorite Remedy, which was the only medicine taken after her case was abandoned by the physicians.

Mrs. Laura A. Kempton, West Rutland, Vermont.

The diseases that follow Scarlet Fever, Measles, Diphtheria and various other complaints often leave behind them sequellas of the most obstinate and dangerous character. To expel all traces of such disorders, tone up the various organs, and fill the veins with pure and nutritious blood, use

OUTSPOKEN SCIENCE.

The following statement came voluntarily to the proprietors of the great preparation of which it speaks. They have never had the pleasure of meeting the eminent scientist who wrote it, but appreciate the honest candor which prompted it:

To Whom it May Concern:

This may certify that as the result of extended researches I am able to state that, in the Duffy Malt Whiskey alone, there is to be had such a pure article as I have described in my paper on "A Scientific Specific for Intemperance," in the North American Review for July, 1888. It is, of course, a well-known fact that we may procure, as a laboratory product a whiskey that shall be free of fusil oil; but it is with pride that I state that alone of commercial whiskies the Duffy Malt declines to injure the brain and the system.

LINCOLN'S MAIDEN SPEECH,

AS FURNISHED BY JUDGE BELL, OF MOUNT CARMEL, ILL.

When Lincoln First Advocated Protective Tariff He Was Not a Lawyer—What He is Reported to Have Said, Before He Became a Lawyer.

By Telegraph to The Freeman.

MOUNT CARMEL, Ill., Feb. 5.—Judge Bell, of this place, furnishes the following maiden speech of Abraham Lincoln, delivered in Poppsville, near Springfield, nearly 50 years ago. Mr. Lincoln was not then a lawyer and had no intention of becoming one. He had then made up his mind to learn the blacksmith trade. His genius was recognized, however, and he was suddenly nominated for the Legislature. His first speech was as follows:

"GENTLEMEN AND FELLOW CITIZENS: I presume you all know whom I am. I am humble Abraham Lincoln. I have been solicited by many friends to become a candidate for the Legislature. My politics are short and sweet. I am in favor of a National Bank; I am in favor of the internal improvement system, and a high protective tariff. These are my sentiments and political principles. If elected, I shall be thankful; if not, it will be all the same."

INTERESTING DECISION RENDERED.

In "Liquor Cases" Verdicts Must be Found Upon Facts, Not Suspicions.

By Telegraph to The Freeman.

DES MOINES, Ia., Feb. 5—An interesting decision was made by the State Supreme Court yesterday, reversing the judgment of the lower court in the case of A. C. Hoagland, a Washington County pharmacist. The defendant and W. Hoagland were jointly indicted upon a charge of maintaining a nuisance by unlawful traffic in intoxicating liquors. They were jointly tried and A. C. Hoagland was convicted. Hoagland is a practicing physician at Brighton and owns a drug store. He obtained a permit in December, 1886, from the Supervisors allowing him to sell liquor for medicinal and other purposes not forbidden by law. Several sales were made and a jury held that the druggist had violated the law, although the witnesses testified that all his customers were ill and needed the liquor. The lower Court fined the druggist $1,000. The Supreme Court says: "The finding that the defendant had reason to believe the applications to purchase were not made in good faith is contrary to every fact testified to by every witness in the case. It is equivalent to finding that every witness for the State, as well as the defendant, were willful and corrupt perjurers. Verdicts must be found upon facts, not upon suspicion."

WOMAN OUTLAW KILLED ON SUNDAY.

Had Been Arrested for Murder and Robbery Often, But Always Escaped.

By Telegraph to The Freeman.

FORTH SMITH, Ark., Feb. 5.—Word has been received from Eufala, I. T., that a woman named Belle Starr was killed there Sunday night. She was the wife of C. Younger. James Starr, her second husband, was shot down by the side of Belle less than two years ago. Belle Starr was the most desperate woman that ever figured on the borders. She married Younger directly after the war, but left him and joined a band of outlaws that operated in the Indian Territory. She had been arrested for murder and robbery a score of times, but always escaped.

RATHER ROUGH ON MOONEY, P. M.

A Rondout Woman who Wanted "to Know, You Know," Certain Facts.

Postmaster Mooney, of Rondout, had a lively experience one day recently. A woman, whose husband had received a "warning letter" from alleged White Caps, walked into the Post-Office and authoritively demanded to know the whereabouts of the Postmaster. Mr. Mooney received the woman in his private office, and the following occurred:

"Do you see that letter? Read it!"

The Postmaster read it and said: "I see it is from the White Caps. They have warned your husband that unless he leaves the State within 10 days he will be flogged within an inch of his life."

"That's it. That's just what it says. Now who sent that letter to my husband?"

"I am sure madam I cannot tell."

"Yes you can, too. Who put that skull and cross bones at the top of the letter?"

"Madam, I don't know any more about it than you do yourself."

"Don't you dare tell me that! Didn't that letter come through your Post-Office?"

"It did."

"There! I knew it! You knew who sent it and what the letter said."

"But—"

"Don't you but me. I want to know who sent it."

"Madam, I again say that I do not know. The letter evidently came from Stamford, as you can see for yourself by the postscript."

"I don't care anything about the postscript; what I want to find out who is the White Cap that dared to threaten my husband. I think you know, but if you don't then I want you to put a detective on the track of the miserable wretch. If any of them White Cap fellers comes around my house I'll scald them."

The woman left the office and Postmaster Mooney wiped the perspiration from his forehead.

THE USUAL BUDGET OF ACCIDENTS.

Seriously Injured While Coasting in the Catskills—Mishap at Fairview.

A German, working in the pulp mill, at Saugerties, had his left shoulder dislocated, on Monday.

Mrs. J. A. Greene, of Catskill, was run into by a coasting sled on Saturday. Her hip was broken. She is 77 years of age.

The correspondent of THE FREEMAN at Hunter writes: "Irving O'Hara was seriously injured while riding down hill on Saturday afternoon."

John Milkins, of the town of Greenville near Coxsackie, was killed, one day recently, by a tree falling upon him while in the woods chopping.

Several men were injured by a hand-car, carrying 35 men, *en route* from Matteawan to Dutchess Junction, jumping the track on Saturday morning. Among the injured were Frank Gardiner, Hugh Miller, C. Dorrey, N. Serrine, W. Heaney and G. D. Holmes.

Robert Tomkins, of Ponckhockie, First Lieutenant of the Fourteenth Separate Company, this City, was severely injured yesterday at Fairview, Port Ewen, the residence of ex-County Judge Lawton. Mr. Tomkins was enjoying the pleasures of tobogganing with a number of ladies and gentlemen. On one of the descents of the steep incline he fell from his toboggan and rolled into a stone wall. A sharp stone pierced his hip and he was hurt so badly that he was unable to return home last night.

NEWSPAPERS AND JOURNALISTS.

A New Penny Daily to be Published in Poughkeepsie—Personal Mention.

"Dutch Reform prayer meetings, conducted on scientific principles," are spoken of by the *Montgomery Standard.*

A. J. Dunham, at one time Private Secretary of the late Hon. Samuel J. Tilden, has been added to the editorial force of the *Middletown Argus.*

The correspondent of THE FREEMAN at Highland writes: "A Poughkeepsie man was in Highland, on Tuesday, soliciting business for a new penny daily newspaper to be printed in that City."

To Instruct the 14th Separate Company.

Captain N. B. Thurston, of the Twenty-Second Regiment N. G., of New-York City, one of the State Military Instructors, has been detailed by the Adjutant General to give the Fourteenth Separate Company clerical instruction. He will visit the Armory sometime during the present month and devote two nights to that work.

Coasting in Kingston.

There was excellent coasting last night, on Burgevin's Hill, Kingston. It was a scene of life and enjoyment. There were many sleighs "out." They ran with speed. Some were elaborate affairs carrying a number of people.

Kingston Philharmonic Society.

On Wednesday evening the Kingston City Philharmonic Society will hold a rehearsal at the City Hall. Professor Hulslander will be present. Some of the new music is bright and attractive, and will be practiced then for the first.

22 Degrees Below Zero in the Catskills.

The correspondent of THE FREEMAN at Hunter writes: "The mercury in thermometers registered 22 below zero on Monday morning."

Free Masons to Confer a Degree.

The Second degree will be conferred in Kingston Lodge No. 10, F. & A. M., this evening.

Promised for Wednesday:

"Heavy snow, high winds from the northwest." So says "Indications."

BEGINNING TO CUT ICE.

THE PROGRESS OF THE WORK 'LONG SHORE AND INLAND.

Dealers Who Have Great Expectations and A Small Army of Men Who Are Anxiously Looking for Work—What Correspondents Say.

And they all with one consent began to rejoice.

The outlook for securing ice crops, on ponds and creeks at least, was more favorable, this afternoon, before the rain began falling, than at any previous time this winter. "Ice notes" gathered by reporters and correspondents of this journal follow:

MANY TONS CUT TO-DAY.

Tons and tons of ice were cut on lakes and ponds in the tier of counties bordering on the Hudson and inland to-day. In the Catskill and Shawangunk mountain ranges hundreds of men are employed. The ice is being carted or shipped by rail to the River front. In instances pond owners have received handsome amounts for the cakes that are now being handled.

"MARKING" UP AT TROY.

Ice dealers commenced marking and ploughing on the Hudson River above the State dam at Troy to-day. The ice is from five to nine inches thick. The ferry-boat Rath has been placed in winter quarters and pedestrians are crossing the ice between Troy and West Troy.

THE OUTLOOK ALONG THE HUDSON.

Special dispatches to THE FREEMAN from points along the Hudson this afternoon stated that the cold snap of yesterday and this morning has also brightened the prospects for ice harvesters along shore. The River is now closed from a point north of Rondout to Albany with ice from one to five inches in thickness. At Schodack seven inches of ice is reported. Another night of zero weather would permit owner of houses there to commence storing. The Glasco Ice Company has seven inches in front of its property and will cut as soon as eight inches forms. The Mutual Benefit Ice Company is cutting ice seven inches in thickness from the flats back of the Hudson River Railroad at Barrytown. Very few of the companies will wait for more than seven or eight inches of ice before commencing to store.

HARD ON POOR FOLKS.

Though the weather has been mild and the cost of fuel to the poor has been comparatively light, still there has been a large amount of suffering on account of no ice money being in circulation. There are nearly 25,000 men along the Hudson and inland who depend for sustenance for about two months of the winter on the few dollars they earn in the ice harvest. In a full crop year about $500,000 are expended in storing it. To keep this amount of money out of the pockets of the poor makes many cases of want. Every branch of business in the River towns feel the lack of money and mourns the "dull times." The most of the men who work on the brick-yards in the summer depend on this ice work in winter, and with them the most of the distress is felt, as the past fall was a poor one for them and many quit work with a store bill to "comfort" them in cold weather.

GENERAL ICE NOTES.

Ice is being cut on the Underhill Pond in Hudson.

The ice on Morgan Lake, Dutchess County, is nine inches thick.

The ice on the Hudson River at Four-Mile-Point is six inches in thickness.

On portions of the Rondout Creek the ice averages two and three inches in thickness.

Ice companies in New-York City have purchased the ice on 20 ponds in Sullivan County.

Arrangements have been made to cut ice from Round Lake and Lake Champlain, for the New-York market.

The Knickerbocker Ice Company will cut ice in Lake Repose, near Ulster Park, the latter part of this week.

The Knickerbocker Ice Company cuts and ships about 25 car-loads of ice a day from points along the Erie Railroad.

The Ulster & Delaware Railroad Company has contracted for many tons of ice with B. S. Mayham, of South-Gilboa.

The correspondent of THE FREEMAN at Tivoli writes: "Ice has been harvested in this vicinity nine inches in thickness."

The Knickerbocker Ice Company has "engaged" the ice on Spring Lake, along the Hartford, Connecticut & Western Railroad.

The ice on the Hudson River at Turkey Point is reported to be four inches in thickness, and a short distance north of that point five and six inches.

The correspondent of THE FREEMAN at Palenville writes: "Nearly all the ice houses in this place are now filled. The few remaining will be filled this week."

North & Schoonmaker, of Rondout, began the filling of the barge F. H. Close with ice, this morning. The ice is cut in Mayhem's Pond, South-Gilboa. Ten cars, loaded, with the frozen blocks, arrived here last night. The ice is 12 inches in thickness.

He was re-arrested on a complaint for violating the laws of the Board of Health of the town of Esopus.

The case will be tried by jury before Justice McKenzie on Thursday afternoon.

The complaint was made by Supervisor Benton, of Esopus.

It is claimed that Murphy buried a child in that town without a permit.

ABOUT HORSES AND THEIR OWNERS.

A Word or Two About "Close Clipping"—The "Fastest Walking Nag."

Lewis Hook, of Ellenville, claims to have the fastest walking horse in the counties of Ulster, Orange or Sullivan.

An attempt is being made among horsemen to raise $3,000 for a monument to mark the grave of Rysdyk's Hambletonian, at Chester, Orange County.

How strange that the man who thinks to improve on nature by clipping his horse in winter, never practices his theory by wearing a linen duster in place of an overcoat.—*Exchange.*

ANOTHER OF DEMPSEY'S FISH STORIES.

In Some Respects It Seems to be the Tallest He Has Yet Related.

William Dempsey, of Rondout, who is looked upon by his friends as an encyclopaedia of strange piscatorial events, related the following this afternoon: "Four shad that had basked in the shade of orange trees that line the St. John's River, Florida, and had scented fragrant magnolia blossoms as they fell into the limpid stream, made a mistake of several weeks as to the time of year. They wagged with their tails a farewell to the tail-end of the Sunny South, set their fins in motion and soon were in the Gulf Stream on their way north. On Friday a lone fisherman at Sandy Hook cast his net into the sea and caught the four shad that had enjoyed such a pleasant swim in the warm Gulf stream. The fish were shipped to Rondout, and yesterday they were eaten and pronounced par excellence. The shads' backs were broader than the shad usually caught in the Hudson River, and the fact that they were taken off Sandy Hook at this season of the year is an odd occurrence, and shows how foolish the fish were to leave Florida before other Northern boarders there began to leave for home. In my opinion some fish are as dumb as some men I know."

The Influence of a Bad Example.

A Kingston woman, speaking of the injury done by injudicious out-of-door relief by Alms Commissioners, relates the following: "There was a hard-working woman with a large family in Kingston. She supported them by washing. She appeared contented with her lot. One day she learned that a family near her, the members of which were not industrious, were receiving support from the Alms Commissioners. She began to complain of her lot, and said: 'If that family is helped when they won't work I certainly ought to be helped when I am trying so hard to get along.' The more she thought about it the more discontented she became. Finally she went to the Alms Commissioners, asked for help, and has been regularly aided ever since."

In Justice's Court.

A civil suit entitled Cornelius Davis vs. Matthew Lasher and Abram Lasher, was tried in Justice DuBois' Court, Rondout, this afternoon. Davis claimed $35 from the Lashers for use of harness, wagon, hay, etc. Before the summons was served on the defendants the Lashers took out a summons in Kingston to serve on Davis for the recovery of $96, which they claimed Davis owed them for board. Before it was served the summons expired, and before it could be renewed Davis served a summons on the Lashers to appear in Court in Rondout.

PILOTS MAKE MERRY HERE.

THEY INSTALL NEW OFFICERS AND ENJOY A BANQUET.

Good Cheer and Reminiscences—Remarks Made for the Good of the Order—The Objective Points of the Watermen—Some History.

And kept the noiseless tenor of their way.—*Horace.*

The members of Harbor No. 3, American Brotherhood of Pilots, of Rondout, had a profitable and a merry time last night. About 50 of these men, whose line of duty often compels them to pierce the gloom of the darkest night and face wind and storm, gathered in their rooms in Odd Fellows' Hall, on The Strand, and witnessed the installation of the following officers, who were recently elected for the ensuing year:

THE OFFICERS INSTALLED.

George B. Gage	Captain
Julius Hyde	First Pilot
A. O. Parsells	Second Pilot
William S. VanKeuren	Purser
Alfred Davis	Purser's Clerk
William B. Barnett	Captain's Clerk
Gustavus Hammond	Chaplain
Jacob M. Rider, John Woodruff	Starboard Quartermasters.
John Hamilton, Joseph Rightmeyer	Port Quartermasters.
George E. DuBois	Forward Deck Watchman
Chester Wells	Saloon Watchman

SNUG QUARTERS IN THE MANSION HOUSE.

Disappointment was expressed at the absence of Frank Risendorf, Grand Captain of all the Harbors, who was scheduled to install the new officers. Julius Hyde installed the Captain, who in turn installed the other officers. After the exercises at the hall were concluded the pilots found snug quarters in the Mansion House, where they partook of a banquet. Among the visitors present were:

SOME OF THE PILOTS PRESENT.

Pilots John Anthony, Harbor No. 1, New-York, propeller S. L. Crosby; W. C. Shultis, Harbor No. 1, steamboat Oswego; Alonzo Barber, Harbor No. 7, Albany, propeller George H. Sharpe; J. B. Brannigan, Harbor No. 12, West Shore ferry-boat Oswego; Martin Cramer, Harbor No. 12, propeller Clara; W. M. Sloan, Harbor No. 12, Superintendent West Shore Stores.

THE "GOOD OF THE ORDER."

The best of cheer prevailed in the banquet hall. The coast was clear, and nothing occurred to obstruct the Pilots' passage of pleasure. John E. Lasher, the proprietor of the hotel, was assiduous in his attentions to the watermen. A more solid-looking body of men would be hard to find. Many steamboat reminiscences were related. Remarks pertaining to the good of the order were made by W. M. Sloan, Jacob DuBois, J. B. Brannigan, W. C. Shultis and T. Donovan. Mr. Sloan said that he had visited nearly all the Harbors in the order, but none had impressed him more favorably than the Rondout Harbor. He alluded to the organization's healthy and rapid growth, and said that it was sailing along in the right channel for future prosperity.

AMERICAN BROTHERHOOD OF PILOTS.

The order of American Brotherhood of Pilots was organized about three years ago. There are now 12 Harbors. No. 1 is in New-York. Rondout Harbor, No. 3, was organized on June 4, 1887. It started off with 24 members. It now numbers 65. The order is a secret, social and benevolent one. One of its staunch principles is "Mutual protection to its members and protection to life and property." Since the inception of the order much good has been done by its members, who are striving to make the American Brotherhood of Pilots one of the foremost benevolent organizations in this country.

THE STORY OF A KINGSTON FELINE.

It Contains Nothing Extraordinary, Yet It Reads Well and is True.

Christopher Snyder, of Kingston, is the owner of a cat that is 19 years old. Though deaf and somewhat inactive, puss is in good health. It lives mostly on milk. Mr. Snyder tells a number of anecdotes about the intelligence of this cat. He was the owner of a little "yaller" dog. The dog and cat became great friends. When an enemy of the cat came in the yard the dog would fly at it and drive it away. During the battle the cat would walk gravely in the rear of the dog, as though urging it on. After the enemy had been vanquished, the cat and dog would touch noses, and then trot back to the house, side by side. The cat had the mischievous habit of killing chickens at one time. A little bantam hen was the mother of a brood of chickens. The cat would stealthily watch the chickens and when Mr. Snyder was not about, pounce on one and kill it. One day when the cat was lying in wait near the coop, Mrs. Snyder raised the coop and let out the bantam. The little hen mother had been watching the cat through the bars of the coop for several days unable to protect its young, and the moment it was free it sprang at the cat with great fury. The charge was so sudden that puss was entirely taken by surprise, and after a slight defense turned and ignominiously fled. The bantam pursued the cat for some distance. Ever after when a chicken came near, the cat would look at it as much as to say: "You can't play that game twice," and walk out of the way.

Rheumatism

According to recent investigations is caused by excess of the lactic acid in the blood. This acid attacks the fibrous tissues, particularly in the joints, and causes the local manifestations of the disease, pains and aches in the back and shoulders, and in the joints at the knees, ankles, hips and wrists. Thousands of people have found in Hood's Sarsaparilla a positive and permanent cure for rheumatism. This medicine, by its purifying and vitalizing action, neutralizes the acidity of the blood and also builds up and strengthens the whole body.

Hood's Sarsaparilla

"I was laid up for six months with rheumatism and used many kinds of medicines without good result till one of my neighbors told me to take Hood's Sarsaparilla. When I had used half a bottle I felt better and after taking two bottles I think I was entirely cured, as I have not had an attack of rheumatism since." EUGENE H. DIXON, Rossville, Staten Island, N. Y.

Cures Rheumatism

"I had attacks of rheumatism which increased in severity. I took three bottles of Hood's Sarsaparilla and I am pleased to say the rheumatic pains ceased, my appetite and digestion became better and my general health greatly improved. I am firmly convinced that Hood's Sarsaparilla cured me, as I have felt no recurrence of this blood disease." WM. SCOON, Geneva, N. Y.

HON. J. P. BASS,

now President Eastern Maine State Fair Association, ex-Mayor, of Bangor, business man and capitalist, is one of the best known men in Maine. He had, not one ago, a severe attack of dyspepsia, which took him from all business, placing him under treatment. He went South and West in search of health, but failed to find it. Could eat no solid food, and became reduced in flesh from 160 to 118 pounds. Spent thousands of dollars, still no relief. At this time met Dr. Brown, who had just returned from Europe The latter undertook a cure.

He expanded and strengthened the walls of the stomach of the patient, cleansed them of foreign accumulations; reduced that "growing sensation;" revived the liver and kidneys, exciting them to a healthy action, and toned up the blood until Mr. Bass began to regain former good health. Under this treatment he became entirely well, and that year, in connection with Hon. G. B. Loring and other officials of the New England Fair Association, managed their great fair. Mr. Bass says Dr. Brown used nothing in his case but
